

## Foreword

This is the "Miracle Book" God does work through it!

There is no index or contents for this book, because each page has a complete lesson for life.

You can open it to any page, at random, and you will find the lesson that you need at this time right there.

It has all the lessons for life, the Real Truth of God.

There are also seventy-five of God's poems, given to me inspirationally, through many years.

I feel so blessed that I have been a channel for all of these beautiful lessons and poems, of God's Truth to be brought to the world.

We have had over nineteen thousand people here in our home, who have flown in, from all over the country, to see how these Truths are received, and in search of further Psychic Knowledge.

There have been Priests, Ministers, doctors, teachers, scientists, and from all walks in life. Each received spiritual blessings and many had complete healings from God.

He works in His own way to show He still knows the need of all people.

These healings were proof that God was here and that He still loves and heals. I did not know the ailments of these people until they told me later they were healed!

I pray that this book may reach many who are in need of assurance, that they are a divine part of God, and that He loves them!

No fees have been charged for the books, or the visits to my home.

With God's blessings and love,

Adele Tinning

## Spiritual Knowledge

Greater knowledge than books contain  
Is deep within all souls  
For this is God's gift to man  
This knowledge each one holds

Instead of searching deep within  
We search in a far off land  
No books could hold this spiritual knowledge  
That God put in each man

We praise the works of Socrates  
Of Plato, Kant and Poe  
But they are only infants  
Compared to the knowledge yet to know

For each soul is progressing  
Each time to earth we return  
Eventually we will reach perfection  
Then a God-soul we have earned

The only thing we have to do  
Is open wide this inner door  
For all that is, or is to be  
Has been here long before

There's nothing new that God doesn't know  
From the very beginning of life  
So get your answers from your Master Teacher  
And stop all this struggle and strife!

*By Jesus, Paul, and William*

There has been so much written about astrology through the ages and the effect different planets have on you, but no one has asked WHY these planets have these effects. With this new knowledge we are giving you, telling you your “*real purpose*” for being where you are, you will know the stage of perfection you are in now and how the planets play a part in your life.

First you must realize your conscious brain does not know the real age of your soul, or soul mind. You would have to understand reincarnation first. Those refusing to believe in spiritual progress through reincarnation can never fully understand yourselves or those around you. Remember, our Father created all souls equally. He did not say each soul would attain equal perfection in *one* lifetime, but he did say *all* souls have *equal* potential!

*Jesus*

I first gave you the stages of perfection which all souls must go through to reach the perfection of your Christ. I (Jesus) was an *example* of the perfection which every soul will attain after many lifetimes of learning.

There are *eight* stages of perfection and *their* planets which help you to perfect these stages. There are “Spirit Teachers” from *each planet* who are constantly trying to help you. Many of you who are not consciously aware of them return many lifetimes to perfect each stage. Only after perfecting one stage can you start on another stage of your perfection. No earth soul knows the stages of perfection which another soul has gone through. Your Master Teacher selects your next stage of Perfection, after you have completed the stage you were working on. You then choose the location and family in which you wish to learn this stage of perfection. This is your “free choice,” your “free will.” You choose the nationality also. So do not blame anyone for where you are, because you chose to come back in this particular place for the learning you have to go through. Do not feel you are being punished for certain events that seem to be unpleasant.

*All is for a learning and a learning only.*

As you read further in this book you will understand that everyone either has gone through these experiences, or similar ones, in a lifetime before, or will go through them in lifetimes to come. Check your birth date and the planet under which you were born and you will know the stage of perfection that you are learning *this* lifetime. Knowing this will help you to perfect it more readily. Now you know your *purpose* for being here. Always remember, many are in different schools of learning for their particular stage of perfection. Just as many are in earth schools or colleges to learn different professions or talents. All souls after reaching perfection are “teachers” or helpers on the ‘other side.’ Seek these teachers deep within. Listen to your ‘hunches’ and intuition. Momentarily you are letting your ‘teachers’ help you when you have the hunch or intuition.

The eight stages of perfection and their relation to the planets are listed on the following page.

This is the *first* time anyone was told about the eight stages of perfection. I asked Jesus why they were not known on earth before and He said, “No one has ever asked. Your ‘soul mind’ knew, but not your conscious brain.”

I had questioned Jesus when He said He was an *example* of the perfection we will all reach—what were the *qualifications* for *perfection*, and the following information came through.

The number in front of your birth date, or the stage, you are learning now, does not mean that is the number of stages you have already learned.

You may have started your first stage from any one of the eight stages. Your Master Teacher told you where you would begin. Only your Master Teacher can tell you what stages you have already learned.

## Eight Stages of Perfection

The lessons may seem to get harder  
As on through life you go  
But teachers will be there to guide you  
With everything you are to know

No words could say how you will feel  
Too great the joy will be  
When you return to graduate  
On the "other side," just wait and see

You will know how you have progressed  
And how many more lessons to learn  
You have the chance to choose the place  
Where you will go when you return

Each lifetime is a chance to learn  
Just one phase you have selected  
You may return to earth many times  
Until each stage has been perfected

There are eight stages of perfection  
That each soul must achieve  
Then you can do what Jesus did  
When you have perfected all of these

*October 27, 1970*

All over the world God's wisdom and teachings have been tucked away like momentos of past experiences and events, only to be brought out on special occasions to show off to a few select friends or people of prominence. How many of you are doing this?

These teachings are up to date and must be used constantly for all mankind to benefit from them. These are your greatest treasures. These are the *only* treasures you take with you when you return to the *Father's* house. They grow in value *only* by using them. These teachings of your own awareness are the rare gifts God gives to each and every soul regardless of race, color or creed. As far as He is concerned there is only one color, one race and no creed! All these teachings are "A Way of Life" for all. They are not restricted to any one group or so-called religions. This is Universal Teaching for all the world. It is the same for everyone but you are all in different stages of learning. Just as there are different grades in school. All of life is a schooling and your one and only principal is God, who does all the grading. No other person can judge another's growth. *Love* is the greatest 'helper' in this growth. It will help you through each stage to your own perfection. No earthly books can fully contain this knowledge which is given through spiritual teachers to everyone. All you have to do is open your inner spiritual door to let them *come* in.

## **Our Thanks Goes To God**

What mysteries lie beyond our reach  
That our human eyes cannot see  
Yet deep within we feel this force  
Leading us through the pathways of life

This knowledge that comes not from a book  
But with authority unquestionable  
From what source is yet unknown  
But our thanks goes to God, the Giver of all

No college degree will be bestowed on you  
Though this knowledge be greater than all  
For who could grade the growth of your soul  
No one but God, and those grades you can't see

But when you return to His Heavenly Home  
You will know the lessons you have learned  
And He will direct you to your next grade up  
To return to earth with new lessons to learn

Each one is great in the eyes of God  
For He sees the perfection you are striving for  
Which each one will reach when all lessons are learned  
So open wide your inner door

*November 28, 1966*

One cannot prove this knowledge by material demonstrations. The individual has to *feel* it himself before anything can be proven to him. He has to experience the sensation of the 'unknown' to his physical self. From there he can gain the added knowledge the ones on the 'other side' are waiting to give him. This knowledge may come to one in many, many ways but the individual will know it is from a power greater than anything on earth. It may only be a gentle breeze across the hand or arm, when there is no breeze from nature to cause this gentle sensation. It may be an 'inner voice' repeating only a word or two. But this 'inner voice' will be so different from one's own imagination that the individual will realize someone greater than he is sending these messages to him. Sometimes, while sitting alone reading or just resting you will become aware of another 'presence' in the room. Though no one is visible, yet you feel its presence. Your higher intelligence will tell you this is God's way of telling you that you are never alone; always there are guardian angels and teachers ever present to help you, to watch over you, ready at your beck and call if only you are aware of them. Then as time goes on your intuitive powers become more acute and you receive more and more impressions of great value to you.

You are aware of this power so you search for more knowledge to explain it. Then you are ready to carry on God's work and know you are a part of God. It is so simple yet so hard to get through the hard shell so many of you mortals put around yourselves in this present state of existence. All this knowledge will be known sooner or later, but the earlier it is known the happier and more peaceful life you will experience. Lack of this knowledge is just being unaware of the wondrous things in life God provided for all. But because you are *not* aware of this *does not* mean it does not exist!

August 11, 1963

(Jesus)

Often you are asked to demonstrate the proof of your knowledge and contact with us on this side. Again, I must say you need *never* do this. Telling others of your experiences and joy from this awareness should be sufficient for them to search within *themselves* for this same awareness. If they are ready for this learning *no* demonstrations will be necessary.

If we have to prove our existence by solving their earthly problems then we not only cheat them of their learning but fail in our work, also. We are constantly trying to make all souls aware of their own potential. By this awareness they can solve their own problems. God gave each soul this inner knowledge and energy to cope with all life's experiences. Closing off this storehouse of God-given knowledge and blinded by human falsehood, they feel they cannot solve their own problems. They must re-awaken this awareness they had in their *embryo* stage.

From the beginning each tiny seed and cell has this God-given intelligence or how else could it grow? A tiny seed has all the potential of a perfect plant right within itself. The God intelligence tells it how to reach out and up to perfection and beauty after it is planted in the ground. The same with human cells. It must take a great Intelligence or Power to make a perfect human being! This you must know! So if this intelligence was there from the beginning it must be there always! It is only one's unawareness, or closing off of this power, that causes earthly souls to have so-called problems.

If all would learn to know the God within and use his God-given love and knowledge in solving daily problems you would have "Heaven on earth," would you not? Where else

could you find Heaven if not right where you are, because right where you are God is also—is this not what you are searching for?

*September 24, 1965*

Did you ever stop to think that the greatest happiness you feel comes from things you cannot see! Think about this—music is one thing you can hear and feel the effects of, yet you cannot see a sound or single tone. *God-love* gives the greatest happiness. You can feel the effects from the knowledge or awareness you have of this love, but you cannot see it. So it is with Heaven, it is all around you yet you cannot see it! But remember, just because you cannot see it with your earthly eyes does not mean it is not there. So many of God's wonders are yet unseen, although they do exist in another dimension your earthly eyes cannot perceive.

Remember, nothing is new, nothing is lost, only the physical shapes of things are different. The substance used to make these material forms has been here since the very beginning. All that was, is and is to be is here already.

The many unseen beauties and *mysteries of God* are all present in the very air around you. Through soul development you become aware of these beauties. They are all within your reach. Each must grow in their development to reach this awareness. There are no shortcuts. You cannot reach perfection by omitting part of your learning, no more than others can learn from your experiences alone. Each must face his own problems and look for the learning from them. Be aware of your growth through these experiences. Know this is all part of growing to perfection.

Do not let others around you, whose soul embryos are in earlier stages of growth, stop you from using your awareness of this God knowledge. They, too, will develop their awareness as time goes on. Be ever aware of the magnitude of power, intelligence, and perfection that God puts in every tiny *atom!*

## God's Wonders

The gentle tears from heaven fall  
To quench the thirst of Nature's call  
But who can say what starts these tears  
Tho many have searched for millions of years

At twilight when the sun is sinking  
And the golden hues reflect on high  
I often wonder where they go to  
As nighttime steals across the sky

These mysteries God alone must know  
And at the right time each man He will show  
More glorious wonders yet unknown  
That only to His Son He has shown

But each in time will gain this knowledge  
That no student ever could learn in college  
The faith you hold down deep inside  
Is the key to the door that will open wide

God's wisdom knows when the time is right  
It may come to you through the day or the night  
This joyous feeling of God's guiding hand  
Reassures your faith in the "Promised Land."

*January 7, 1966*

*Paul*

Every *sincere* desire is fulfilled in due time. If each desire was fulfilled the moment it was asked there would be a constant disruption of your spiritual growth. Many desires do not promote spiritual growth, only earthly gratification. Be ever aware of your higher teacher's wisdom in handling these requests. No need to repeat these requests or desires because once known—always known—by your spiritual teacher. Many times before these desires are granted your requests have changed. You have grown in knowledge and realize the foolishness of them.

The intensity of the power each one has is unknown to most earthly souls. This power is given to all from God. The more you use it, the greater the force. You can never deplete this power. What is this power? It is the spiritual energy ready to help you go through the many so-called problems you must go through for your learning. Lack of confidence in this power causes you to struggle through life. *Immortal man only struggles because he does not know he is immortal!* Man's knowledge of patience is so much needed!

*September 16, 1965*

## God's Knowledge

You find a great new haven  
Away from earthly cares  
It starts you on the road to heaven  
On God's golden stairs

Your awareness becomes so perfect  
Life takes on a whole new view  
For answers to God's many mysteries  
Are revealed from Him to you

So startling is this Knowledge  
That the Teachers give to all  
One wonders why we wait so long  
In answer to His call

You live these teachings is a MUST  
Before you can pass them along  
You'll find God's many mysteries  
Become a beautiful song

This way of life cannot be beaten  
No matter how you try  
For once you feel God's wondrous love  
You'll know the reason why

*June 21, 1965*

*Jesus*

All the teachings bring their fullest joy in the living of them. Giving these teachings to others is fine, but until each one of you have lived these teachings first you will never realize their worth. All must change in many ways to be able to live God's teachings. The full value comes in the knowing that these changes have brought about a better 'way of life.' Then, when you look back you will see with amazement all the good it has done and the joy you received in return.

Think not about change, for life is constantly in a state of change, whether you realize it or not. There will be more giving on each one's part. The receiving will be simultaneous so you will not have to concentrate on the receiving. Such joy you have never had before will be yours. Give with the freedom and love of a child. This is the true God love. Gentle, tender, loving and *sincere*. The more you give of this love the greater it will grow. Be sympathetic to those less fortunate who have not yet learned how to give of their own God-love. Be ever patient and understanding. Remember all are God's children. Remember, you may disagree with another's way of doing things, but in their stage of learning this may be the only way they can learn from this experience. This does not mean you have to dislike them because you disagree. Learn to love all the other fine qualities they possess. Again, all are God's children and equal in His eyes.

*September 11, 1964*

The Master has, what it may seem, strange ways of teaching. With some He is very natural. With others He gives parables to convey His messages. Some try to take short-cuts, others take the long road so we should not question why. Patience is needed, time is eternal, so why be impatient!

Some grasp this knowledge from little on because their souls have learned before. Newer souls, though in earthly bodies of many seasons, refuse to open the channels for this learning to come through. Have this understanding. Hold *not* this against them. Pray for their *understanding* and help.

Do not pity them, but show them love. Do not become upset, but calm the waters—without fury there is peace and understanding. There will be moments of unrest but they are just moments in life's span. God's goodness is everlasting. It cannot be destroyed, it floats and filters down among all humans and earthly things. It is everywhere. Some may not see it as readily as others, but *all* find it sooner or later.

*September 21, 1963*

You know that it is only through the sharing of the good things in life that brings your greatest joy. Just think of the joy all would share if you *loved* each individual with as much *love* as you have for the person you now love the most. The intensity of your joy would be as great as God's in His sharing of all the goodness and love He has for all of you. Would this not be Heaven on earth? The world will have fear, resentment, hatred and wars until we can figure out a better way of teaching the ones who make mistakes, that these experiences they are going through are only lessons in learning instead of punishment.

If a child lights a match you don't wait until the house burns down to teach that child that the small flames could do that much damage if left to continue burning. Yet you let people have resentment and hatred that is burning up their very souls, and the guilt you falsely make them feel brings you diseases and wars.

Each one of you could stop a potential war by stopping this hatred and guilt feeling in another. *Don't put another person in a position to feel guilty.* His guilt makes him have resentment for you which, in turn, turns to hatred instead of love. His frustration comes from wanting to love you, yet *the guilt makes the love turn to hate.* While all the time he's wanting you to love him.

You are the guilty one for making him feel guilty—

You are punishing the *wrong* person—

You are doing the injustice—but you feel right because the other person *looks* in the wrong—

Again I say, whenever anyone becomes angry in your presence, you are as much to blame as they are for putting them in that state of mind.

*December 17, 1966*

## Love Unused

The world is filled with love unused  
The richness no one knows  
If only we could find a way  
To release it from its shell

The joy would beam on each one's face  
And no one would be strangers  
The healing force that comes from love  
Would cure all ills of mankind

Be the first to spread this love  
Release it from its shell  
The richness that returns to you  
Would be too great to tell

Regardless of what age you are  
Your position or your wealth  
This love was given to all alike  
The rich, the poor, and ill in health

*January 15, 1970*

## God is Everywhere

The wonder of this knowledge  
That our dear Lord "over there"  
Has given us throughout the years  
For everyone to share

If only more of us poor mortals  
Stopped to listen to His call  
How wonderful our lives would be  
To feel this love He has for all

*February 18, 1956*

*Paul*

We are awakening the knowledge already within you. How else would you feel free to express these inner feelings? This knowledge has been fed to you over the years; bit by bit it is pieced together to make a beautiful way of life! Storing it up has no value—keep using it thereby increasing happiness for you and for all with whom you come in contact.

Each experience, whether it be so-called unpleasant or illness, is a time of learning. Not only for you but those you contact during this time. Your *attitude* is the important thing. How you go through this experience is what counts. All must learn in different ways. You can teach while learning yourself, or using what you have learned. Others learn from seeing what you do under certain circumstances, such as tragedy, illness, or so-called setbacks of any kind.

Every experience you go through is part of a teaching, either for you or for those around you. By keeping the right attitude and looking for this teaching you gain much. Your *purpose* on this plane of existence is for *this learning* from these experiences!

*June 14, 1965*

*Jesus*

Wise are they who seek the *Truth* with *humility*. God the Father is ever aware of one's inner thoughts. Seek not the whims of flattery, for that is all they are, when you already know your true self to be part of one with God. What greater *praise* could you ask for than to know you please God with your actions. One need not seek the applause of the multitudes when your reward is already given. The moment you release the real *Truth* of God, which is love, you already have received your reward with a greater return of love flowing through you.

Be not rushed or impatient with the teachings for through the waiting another lesson should be learned. These teachings are coming through constantly. It is only your unawareness that causes you to think otherwise. We have many ways of teaching. Silence sometimes is the greatest lesson.

Through our silence you begin to think. You revolve around the situation. You appreciate the audible teachings more. You re-appraise yourself, thereby recognizing many of your weaknesses. Never be ashamed to bring them out in the open. This is the way you grow. Too many hide them only to find they have grown. Discard old ideas that have held mankind in bondage. This was not God the Father's purpose for putting you here.

I remained among you to show you God's way of living. It is a beautiful way, a simple way compared to the way men strive to survive in your present time. People keep going around and around, only to find they are right back where they started. Right here and right now is the only place you can find peace—just go within and know the Father. All your answers are there. All your peace and contentment comes from within, not from without! Think about this!

All the riches in the world could not bring you happiness if within you were sad. Money cannot buy happiness; it is only an outlet for the happiness within to come out. Think about this! So build this happiness within, with the true knowledge of the Father.

*“Don't let false teachings make you feel guilty.”*

*“Don't let false teachings hold you back from the wondrous gifts God has for you.”*

*“Don’t let false teachings close the channels for the Truths of God to come through.”*

*“Don’t be ashamed of the God within you, the love He gives you to share with all others.”*

*“Don’t let false teachings fill you with fears, resentment, prejudice and hate.”*

If you have any of these you have been listening to false prophets! False teachings!  
Man-made laws and ideas! Not God the Father, who has only love for all.

*August 28, 1964*

## God's Special Gift

Each one has a special gift  
That God gave you alone  
To express in your own way  
The beauties of this wondrous land

You need not have a college degree  
Or title of any kind  
Just the God-given love  
For all your fellow men

A smile—a tear—a handshake  
That's sincere and heartfelt too  
Can do more good to bring the Peace  
The world is seeking now

*October 25, 1969*

## *Jesus*

Laxity in one's awareness shows our teachings cannot reach one's deep consciousness. You only get a fleeting glimpse of the *Truth*, the real *Truth*. Your ever busy world keeps you so confused that you do not stop long enough to listen to the real God within. How much beauty and happiness you all miss because of your confusion. Remember, when you journey over to "this side" you leave all material things there. Only your *love, faith,* and *understanding* go with you. Understanding is knowledge. You *gain wisdom through faith and love*. This is your real purpose for being on this plane of life. Help all to grow by knowing God the Father better. Learn Love, Faith, and Understanding. Give a helping hand, a cheery smile, an encouraging word to *all* whom you meet. Smiles are contagious, the chain reaction would be terrific. This is the best way for God's love to spread and grow.

What reaction do people get when your name is mentioned? Did you ever stop to think that your name carries power? The kind of power is important. Does your name bring a smile and a happy feeling to the person, or do they turn away in disgust or look sad? This will tell if you are spreading God's love and teaching to all whom you meet. Make this test. Think of the different people you know. What do you feel, what do you think at the mere mention of their names? What effect have they had on your life? What have you done to help them? Stop and ask yourselves these questions. The people whose names bring happiness to you, what kind of lives do they live? Can you learn more from them, do you treat others like they treat you? Will your name have a happy feeling to persons thinking about you, or will they feel no reaction at all? Make these tests often. See if you can make all people who contact you have a loving kind feeling inside when they think of you. Then you have learned God's teachings well. You are then a living example of God-love.

*October 20, 1964*

## **The Worth Of Living**

The worth of living  
Is in the giving  
To do your part  
Love from the heart

Be humble and meek  
When it's God you seek  
Then His love you will share  
And your troubles He'll bear

*June 30, 1965*

When you know your purpose then you start developing your soul growth. Through learning your earth purpose you are more relaxed to learn *understanding, patience, selflessness, and love*. When the pressure is off of your conscious brain of wondering what you are to do in this world, and not trying to be something you're not capable of being, then you will know how to enjoy your place in life.

Remember, all do not need mansions to have a happy, full life. Understanding your real purpose, brings a deep satisfaction and real happiness to each one.

*November 1, 1965*

Many are past the stage of learning what is being taught at the present time. They are now living what they have learned. Each one finds where they can do the most good with the learning they have. A college professor would not fit in teaching first grade because he would be wasting his knowledge needed for teaching higher grade students. So it is with this knowledge. Go where you are needed to give of your level of consciousness. Set an example of your knowledge *by the way you react to life's problems*, thereby teaching as you are living.

Do not belittle others with less learning at this time for they will reach your stage of learning eventually. Leave each one you meet with a good thought. Seek some new knowledge from each one. Look to the inner personality or identity of each individual. The real God soul of each. Be ever alert for "thought consciousness" that can have an influence on your own thinking and actions. The more sensitive you are the easier it is to pick up other's thought vibrations. Leave with loving thoughts for all. But when you feel negative vibrations, send loving thoughts out stronger than ever, then withdraw to a positive environment.

Much of human reaction is influenced by other's thoughts, not by what is said in words. One's impressions are far greater than spoken words and more lasting. Remember, all are on different vibrations. Stay in tune with the vibrations that bring you peace and understanding. All will understand this as time goes on, for each one's own health.

You will be drawn to different groups and discussions from time to time. Your awareness will let you know when your work is done. Linger no longer than is necessary to absorb what you need and what you can give. Step up your knowledge and your teaching. No need for repetition. When other's doors are closed you are wasting precious energy, go on to another location. They will open their channels in due time and grasp what you gave. Give to those ready to open their channels for this awareness now. This same teaching has been evolving through all eternity, ready for all to tune in whenever they are ready. Each one has his learning and each one has his teaching. *This never ceases!*

*October 8, 1965*

*Jesus*

*The wise seek knowledge with humility. Give not of time and wisdom to those seeking this knowledge to enlarge ego, or to fill their pockets. They have not the deep concern for God's children. Their spiritual growth is not open to more spiritual knowledge at this time.*

*February 20, 1969*

Books must be read with an open mind. Absorb only that which your inner teachers know is for your growth at this time, regardless of who the author may be. There will be

a definite “yes” or “no” heard deep within. Heed these answers when learning what to accept and what not to.

Seek knowledge not to strut, but to help others in their growth. Learning to gain material things only is like building sand castles on the sea shore. One wave can wipe out all.

Expanding the “Soul’s” growth is the only lasting growth there is. Through your many experiences the “Soul mind” continues its growth and evaluates its importance according to its earlier knowledge, whereas the brain only records the present lifetime experiences. The present brain can be damaged or destroyed, but *never* the “Soul mind.”

Remember, *each one* is a “Divine Individual,” regardless of his Soul’s growth! YOU ARE EQUAL IN GOD’S EYES. You all belong to the One. Yet, each is different in his expression of the “Oneness.”

When I say ‘work to right wrong,’ I do not mean what is wrong for you is wrong for everyone else; I do mean with each one’s growth, *they* know what is right for them at this time. Sometimes we have to learn the wrong way first to know what is right.

Remember, you are at all times in the right place for your “Soul’s growth,” so learn well from each experience. Look for this “learning” *from where you are now*, then you will move on to new schools of learning. *No one* goes on to another school until he has learned his lessons where he is now!

Some may learn more quickly because of other “earth time” experiences. But all must learn the same, for their growth, to “complete perfection.” *All* have equal potentials.

If one studies Science and Technology one finds what is really important to a human being. In other words, what part of us cannot be made into a machine? Here lies the answer to our goals; to our *real purpose* for being on this plane of existence at this time. Machines can calculate, record, memorize, recall all knowledge put into the machine—but it lacks feelings, emotions, love, understanding and a faith, with tolerance for all. Think about this! It also cannot work without a human-being directing it.

Could you, as an individual, be contended to go from home to home and be greeted by a machine, even though it could quote all great works of philosophers, poets, writers, and even the teachings of Christ and His disciples? When you go to a store, a robot greets you and waits on you, even says, “Thank you.” Would you be contented? Maybe, for a short time, but unless we feel the robot has a little *concern* or *feelings* toward us we would not continue going there. What is really important to all of us? It is our *inner feelings*, our deep yearning to be *liked* or *loved* and *accepted* for what we are *now*! I could enlarge on this but you get the message from many lessons before.

This is part of the “wrong” that has to be made “right.” We are spending too much time making machines with constructive and destructive forces and we are neglecting the greatest God-made instrument, so intricate that no human can duplicate, and that is a “human being!” Each human being has the capacity to build anything he can think of in a material way, but all the brains in this world cannot make a “human soul.” How rich are we, how unique are we as an individual? You *cannot* be duplicated no matter how science advances! So use your individuality to give out the good no one else can give. There is only *one* of you, there will never be two of *you*. What you do with you is up to you! No one else can change you but yourself; no one else can hold you in bondage but yourself. No one can possess you unless you let them. You are *free* regardless of where you are!

Jesus did preach, *you are your own “temple of God.”* He did *not* say, “Go out and build big churches and separate yourselves from other men who do not believe the way

you do.” If all men acted as Jesus, who was an example of the perfection we all will attain, then we would be living daily “The Way of Life” He was teaching!

How little we know about the individual soul. Some day we will realize why Christ said “We are all brothers.” Understanding reincarnation will further this understanding of brotherhood! Do you follow me? If you do not at this time it does not mean you are stubborn or ignorant or indifferent, it is just that you are not ready for this teaching and knowledge. Yet, you may be further advanced in other knowledge unknown to those with this knowledge and understanding. There is a time and a place for each “learning.” You are in the right place and at the right time to learn what you were put here for. Just because you are “visiting” a school where they are teaching Spanish and you speak only French does not mean that what they are learning is wrong and you are right. Follow me? Each has its time and place of learning.

Again I say, “this teaching is A WAY OF LIFE” *not* a religion! One of the “wrongs” is trying to be just like someone else. You lose your own identity then. Also, trying to make people conform. There is a difference between teaching methods of learning and conforming. One would not need half the laws and rules if each person respected the “rights” of others. We would not attack or destroy other people’s property or belittle other people’s jobs or dress.

## **Gone To Rest**

A lovely rose lies wilted  
Where moments before  
It stood tall and beautiful  
With its fragrance filling the air  
Why such short existence  
For such exquisite beauty  
Each petal falling from the bloom  
Like autumn leaves from the trees  
Releasing fragrance long remembered  
Though the plant has gone to rest

*1966*

The perfect you is within you from the very beginning. It is only your awareness that brings it out. Sometimes it may take many more incarnations to bring this perfection to its full bloom. Just like a beautiful hybrid flower. Only after many reseeds does it come into its full bloom of beauty. Remember this when meeting people you do not take to readily. Remember the perfect person is deep inside. See beyond the sight of your eyes. Feel deeper into the other person's feelings. Remember he may be just perfecting one phase of his real self, like patience or tolerance. He may not be as advanced in understanding and love as you are. So you must show *patience* with him. All are, or will be, perfect souls in God's eyes. He sees only perfection. We see the imperfections of each other.

Fear is one of man-made emotions. You only have fear when you lack faith! Remember fear comes from lack of faith. Trust the dear Lord and thereby turn fear into faith, worry into a wonderful experience. All learn from everything they do. The greater the experience, the greater the learning!

Be not selfish with your learning. Share it with others, then others share their experience with you. Thereby all learn or advance in their knowledge. Love gives *understanding*.

*November 30, 1964*

Learning to accept each one in his stage of learning is the height of *understanding*. This is the real problem today—real understanding of each one's stage of learning and loving them in that stage!

You so-called "learned" are not condemned by God because He knows you have more to learn yourself. Impatience with each other's understanding is another phase that needs more development in every human on this earth. These are real soul developments—patience, understanding, selflessness, and love. Some will say "faith," but faith *is* love, God love. When you have God-love you have faith. When you can do for others without looking for the reward—you will gain from it—you are developing selflessness. When you can *see all problems and situations in the true light of learning from them, or knowing others experiencing these so-called problems are only going through a stage of learning, then you are developing understanding*. When you do not become upset because others do not see your viewpoints or do things as you think they should be done, and know they may take a little longer than you feel they should to do something, then you are developing *patience*. When you can *constantly* send out loving thoughts to all mankind at all times, through all situations, you have developed God-love. How many of us have reached this stage of soul growth?

How many of us, when we hear of a man robbing a bank, look into his heart to see what caused him to do this, or have we given his family the food and necessities of life that his family needed to survive? No, we throw this man in jail and forget about him and his family.

Did you ever stop to think if each of us would just help *one* other person to have a better life, not only in material ways but also by letting him know we are concerned about him and want to help in any way possible, then there would be no need for policemen patrolling our streets. The millions saved could provide happy, healthy recreation spots free for all. You each need only to help *one* other person in need of love and understanding. Forget competition—think cooperation! Everyone's life would be happier.

## *Jesus*

This, my children, is the NEW teaching that you are to spread. So simple, yet so difficult to understand. Close your eyes to what you used to think was success and happiness. With your eyes closed you either feel alone or surrounded with love. If you should lose your earthly eyesight what would you feel? Lonely, lost, unloved, or would you be aware of the tremendous love all around you? Would you feel the bursting of love deep within your soul that is seeking to be released? These feelings you will have to feel sooner or later.

Blind people do not know if you are black, white, or yellow, but they do sense the love radiating from you. They get to know the real you, not the camouflaged you. Think about this. Your pretty clothes, jewelry and cars have no value to them. Your gentle touch, your God-love, your loving voice they understand. This shows your real soul growth, your God-love growth. (Remember, Jesus did not have crown jewels or beautiful robes. Yet, he had faithful followers and the love of thousands—yes, millions! Who was the richest, the king or Jesus?)

Again I must remind you that you do not have to worry or wonder what has happened to the souls that have returned to the Father. All work in harmony on this side. Why should you feel superior to God and think you have to show them where they should go, or show them the light they should see. God has many helpers trained to help *everyone*. Your so-called criminals, atheists, drunkards and many others that you feel have “sinned” are all taken care of with a love and understanding far greater than any of you earth people have. Always remember this.

Did you worry what soul was going into the body of the baby you were bringing into the world? No, you did have faith that God knew what to put into that body. Then give Him credit for taking care of those returning to Him. You are never lost to Him. You are only lost to the sight of earth souls when you come over into this dimension. You spend too much time worrying what’s going to happen to you when you die. Just think what would happen to each child entering school if he worried about what was going to happen to him when he gets to college. Or, if you kept telling him he had to know this and that and do this and that before he enters college. The child would be so confused that he would not be able to learn a thing.

So forget what will happen later—learn what you can today. Tomorrow’s lesson will be easier. I hope you understand what I mean. Man has made life complicated. He calls this progress. Is the city dweller happier than the man in the country? If so, why does the city dweller keep looking forward to going to the country to get peace of mind?

School and education are only for the purpose of letting you know what you already know down deep inside, because what you can accept you remember and use; what you can’t, you don’t remember or use at this time.

*October 3, 1965*

Millions of us mortals do not see the beautiful sunrise or sunset, though we have heard how beautiful they are. We are too occupied with our daily chores or social events to stop a moment to gaze and give praise to the “Giver of all.” Only when the thunder or lightning flashes do we suddenly feel a fear of the powers of nature! The closer it strikes, the greater our fears—then quickly we turn our thoughts to God and pray, “Dear God, save our home from this storm.” Why must we wait until disaster or destruction strikes before we remember the Great Power of God all around us!

New little babies are born every second of the day, also death strikes as often, but not until someone close to us dies do we stop and wonder what becomes of this wonderful mind that was in this body. Is there a God; is there eternal life?

How comforting it is to know God is ever forgiving of our neglect of Him. He knows our weaknesses and allows for them. He continues to bring a beautiful sunrise and sunset every single day. He knows eventually everyone will recognize the God beauties all around them and in them. Just because our conscious brain is not aware of what is going on all around us does not mean it does not exist. He knows; He put this knowledge in the soul of every human being and eventually man will grow into this awareness, regardless of color, race, or creed. All have equal potential; all are equal in God's love!

How strange it is that now we can readily accept the power of some unseen force, like electricity. Yet, how many millions of years in the past no human ever realized there was such a force existing in the Universe. So it is with all this God-power. It is everywhere, but only a very few really realize it and utilize it for healing and growth.

## Forever Near

As sure as there is a sky above  
And the earth below  
The dear ones we've lost  
Are with us I know  
Their spirits are near us  
Like that of God  
Only their earthly bodies  
Are under the sod

Just speak to them  
With endearing words  
And they'll fly to you faster  
Than all of the birds

Their presence you'll feel  
With a warmth in your heart  
And you'll know they were with you  
Right from the start

So pray each day  
That you may be good  
And receive all their blessings  
The way that you should

Never start to doubt  
God's wondrous ways  
And you'll always be happy  
Through all of your days

*April 7, 1953*

*Jesus*

Have I not told you each one is put on this plane of life for a purpose—a learning!

Why say, “God is cruel to take a child so young,” when he is returned to the Father. You are not the judge. Would you keep a child in first grade when he has the full knowledge of all of life? That is what God the Father would be doing if he left him on your plane of existence after he had fulfilled his purpose. You, in your present knowledge see only with your earthly eyes. So to you this child was like a tiny plant being cut off before it had a chance to come into full bloom.

Though a soul’s outer body may be only that of a child, its soul’s growth may be greater than any scholar of your time. The short span of existence on your plane in this body may have been all that was needed for growth. Or, in this present location and form the soul did not need further earth experiences so it was returned to the Father. If further experiences are needed for growth, it will be returned in the right location and form for this growth. It may be in a far off distant land, or on some other plane or planet.

You show sorrow at this loss but it is only you that has had the loss. The child’s soul feels no sorrow. He knows some day you will know why you go through these experiences. Grieve not for the souls that have returned to the Father for they are in eternity the same as you are, only you are not aware of it in your present state of existence, yet your soul is aware of it!

Again I say, judge not the wisdom of an earth soul by the degree of knowledge it displays in its present form and conscious brain, for it may be further advanced than anyone on this earth in its soul’s growth. Seek the God within each one you meet and come in contact with. Watch how life takes on a new fullness and enjoyment. Give each soul its chance to grow. You cannot grow for another but you can help them to grow. Remember, your journey may be longer this time than another’s. That does not mean that you have seen more or learned more, for the other may have made that journey you are taking now many lifetimes before.

Your soul, as you call it, your God light vibration as we call it, can never be injured because it is of God. One’s *physical brain* may be damaged but never its *soul mind*. Would God make such a precious gift so fragile?

Do you realize every tiny seed has all the potential of a full grown plant already? If God the Father provided *all this* in a tiny seed would He not do the *same* for *man*? Remember, the potentially perfect you is *all there already!* It is only through your many lifetime experiences and your awareness of this growth that you reach this perfection.

*December 13, 1964*

People must realize the *one purpose* for all of life, and that is for “*Soul’s Perfection.*” Every incident that takes place must be looked at in a new light instead of saying, “What did I do to cause this?”—or, “I don’t deserve this.”—or “Why am I being punished like this?” We must look at it for the *learning*. We should always ask ourselves, “What can I *learn* from this?” Often incidents are repeated because we did not learn from the first incident. Just like in school, if we misspell a word we have to repeat over and over until we spell it correctly; so it is with all of life.

Each one of us is learning different qualification for our “Soul’s Perfection.” We are in different stages of “Soul Growth,” so from each incident or life experience we take something different in the learning from that experience. Only we, as individuals, know what is needed for *our* growth. If we don’t learn the first time, it is repeated so we can

learn. This is *NOT* a punishment, only a way of learning. When all peoples of the earth realize this, we will eliminate guilt feelings.

How sad it is that we cannot take the simple teachings of Jesus, and many other great philosophers, and live a simpler life and thereby growing faster.

We are making the material things of life our God instead of the ONE CREATOR—the one GOD who made man and earth and everything there is!

All one has to do is go to a funeral more often and see the “Souls” who “graduate” on to a better life. They leave even their last clothing and body here to deteriorate. All they take is their “Soul” when they go on.

*March 23, 1969*

## Boundless Beauties

Boundless beauties within our grasp  
Yet unseen by our eyes  
Too great the desire for material gain  
We overlook the priceless gifts of God

But if in life we take a pause  
And really look around  
Our startled eyes just wouldn't believe  
The beauties we passed by

No human could make a beautiful tree  
Or a bird with its wondrous song  
Not even a blade of grass could we make  
But with God through nature it grows

Where is God so many ask  
Without realizing He is everywhere  
His golden sun and drops of rain  
Filter down in every nook and corner

God is the rain and the sunshine  
He is part of all that there is  
So when you ask where is God  
He's part of you that's where He is

*January 23, 1970*

## Deep Love

The glowing beauty that radiates  
From the soul of the one  
That loves deeply and sincerely  
No words need to be spoken  
It all is shown upon their face

Such warmth and joy  
Seems overwhelming and tears of joy  
Are released from within

This love is one of God's wonders  
Intangible and dynamic  
The love that makes men great  
And reach for heights unknown  
Yet they are aware of a tiny flower  
In a garden just beyond

*April 28, 1969*

*“Seek the good in all whom you meet.”* The revelation you find will startle you. Stop and look twice into the eyes and heart of each individual. The richness and beauty you find hidden under the surface is far greater than any gold you could ever find. Your days would be all too short to absorb this great beauty and fullness of life that God gave to all. You should never have a lonely moment or unhappy situation because of the love of all that surround you—*true understanding* dissolves what seems to be disharmony. Forget one’s outer appearance. Seek the Christ and Loving God in each one you meet.

If you are searching for happiness, companionship, or love, it lies within each one you meet. You do not have to go far to find it. You, yourself, are so full of love and understanding, yet you close the door only to look elsewhere for it. The moment you open up your heart to let your love and understanding out more love comes in. You are never without love, *only without the knowledge or awareness of where it is!* And *How to Use It!* There is not a single thing on this earth—person, flower, bird or animal that could ever say it is unloved, for God has given His love to everyone and everything!  
*August 26, 1963*

## Love Thy God

I ponder ways of speaking  
To let the God in me come through  
The gentle, tender love He shows  
Is hard to put into words

Although His daily presence  
I feel so deep inside  
I often wish He would appear  
For all the world to see

His message always is the same  
“Love thy God with all thy Might”  
And “Love thy neighbor as thy brother”

Could we but fill these two requests  
Then all the world would be at rest!

*April 10, 1969*

When humanity realizes there is no such thing as ‘religion’ in God’s plan for man, only ‘*a way of life,*’ then men will become brothers. He never intended that man should separate himself from other men by so-called religions. All were put on this plane of existence for a purpose, a learning. Each one is equal to the degree that within the perfect God-like you is all there ready to be perfected through your experiences. No one is better than the other, and no one is worse than the other. Through your many lifetimes each grows to perfection. *You are in Eternity already.* New doors are opened to you for your growth. *Death, as you call it, is just another door opening for your soul’s growth.* The beauty and harmony and understanding each one receives is far too great for you to comprehend in this state of learning. But each of you must know God has greater things in store for you than your earthly eyes can see.

“*God’s Way of Life*” is simple. Christ tried to set an example for us to follow but most human beings lack the faith to follow in his footsteps. But there will come a time when all will reach this stage of learning, and we will live as Jesus did. *Not accumulating material things but attaining human understanding!* Having a greater love for humanity; not a false love, but a *deep desire to help one another.*

Automation will help bring about this understanding. People will have more time on their hands to be in contact with other people socially. They will be bored to death unless they find this deep feeling for each other. There should be joy in the meeting of one another. Only then will we realize all we have missed through the years by not trying to know people better.

Just think of the wonderful structure of a human being. The tiny cells doing their part every second of the day. The millions of nerves that connect the different parts of our bodies. Then the brain, the workings no human being has been able to understand. The greatest mystery of all, our ‘soul,’ or ‘mind’—the God Mind. We feel the results from its knowledge but we cannot touch it or describe it! This is the greatest ‘frontier’ yet undiscovered. Maybe men will spend more time learning about this ‘frontier.’ Each one you meet has a new ‘frontier’ to discover. Just think how interesting each person is! Some day we may be able to recall our former lives, our experiences, our loves, our families—*then we will understand why God says, “We are all brothers.”*

We have too many preachers and too few doers. You should use the Bible as a ‘Way of Life;’ not just something to preach about. This should be part of the learning in school, from kindergarten through college. Not a religion, just a ‘Way of Life!’—the same as learning what to eat to keep healthy and good manners to make you acceptable in society. The Bible should help to make you understand other people and love each one for *what he is* in his stage of learning. ‘Tomorrow’ or in your next ‘lifetime’ you may be the teacher and the teacher the student, so learn while you can and learn well.

Too many man-made laws have been misinterpreted as laws handed down by God or his disciples. Free yourselves of these fears of ‘hell,’ purgatory, and the devil. God never intended to make you love Him because you have fear of the others. *Your love should be free of fears.* If you do right only because you fear the punishment of doing something wrong, then you are punishing yourself anyway. You have to do what you feel is right even though it may be wrong in someone else’s eyes. *You are right* because at your stage of learning that is all you know how to do. That is why we cannot judge another’s actions. We do not know the stage of learning he is in. *Love each one for what they know, not what you know.* All will be perfect in knowledge and wisdom when they reach their perfection of God! One’s age as you know time does not tell one’s soul’s growth, so judge not!

## They Are My Brothers

Dear Heavenly Father  
This I pray  
That I may learn  
From day to day  
A more loving way  
To give to others  
And always remember  
They are my brothers

God sent you on earth  
To teach of His love  
That He gave to all  
From Heaven above  
If only we mortals  
Could realize its worth  
We'd surely have heaven  
Right here on earth

Instead we go stumbling  
With fear and with fright  
Please help us to know  
The wrong from the right  
Although there are many  
More lessons to learn  
I hope I'll be worthy  
When to Him I return

*August 16, 1964*

*Paul*

My dear, if you could but understand that only because of your conscious emotions do you have such values, emotions, or concepts on your plane of life—such as hate, resentment, wars, rich, poor, loneliness, fears, marriages, divorces, tension, insecurity. These are only a few of the emotions you register during your plane of existence. Not *one* of these exist on our planes. Why? Because one already knows the true purpose of our very being, as you would say. We are all like an open book. There is no need to pretend, to wonder or doubt. We know each one's thoughts and aims. We all throw our light in one direction. If you could only know the love and richness that surrounds you—if you could only know the *true love* that is planted in each and every one of God's spirits or souls, your fears and other emotions would diminish immediately. That is why we wish to have you reach into the deeper consciousness of each one you meet to recognize this beauty which in all is called "love." This we ask of you for future happiness of all. Search each one you meet for their inner feelings, not the mask you humans wear. How false they all are. Many times you have asked, "How can God let such terrible things happen on this earth, with the love He has for all His children?" You do not realize that God has greater plans for all of His children than this tiny existence of yours.

Life is like a treasure hunt. You may travel far and near in search of life's treasures only to find in the end they were right within your own heart. You have to bring these treasures out in the open to view their richness. What are these treasures? Security and Love? These two even drive men to kill! Yet, if they only knew, if they but opened up their own hearts they would find the key to all life's treasures. How humans rush through life struggling to get material equipment to find happiness and love, when they had it all the time within their grasp! We see this going on constantly and though we strive to inform you with the solutions you ignore our teachings.

## God's Hidden Treasures

The rugged hills  
Hold treasures rare  
Beneath its earth-worn face  
It runs so gracefully  
Through the soil  
Like silken worms  
On daily jaunts  
So few find God's hidden treasures  
On earth or in mankind  
For precious things are deep within  
And few seek there at all

*February 5, 1970*

*Jesus*

Please tell everyone to clear their minds and hearts of old beliefs and laws that girdle their love and narrow their thinking until the tension becomes so great you literally burst at the seams! Blank out all thoughts of previous concepts and, if you do, you will be awakened to your real purpose for being on your plane of existence.

First picture the protecting arms of God the Father encircling *all*. For as sure as He had his protecting arms around me, He has them around you. Now know that *each* and every move you make is towards a goal that reaches to final perfection of *your* soul. Criticize not the moves of others. All will move here and there until they find the spot or school in which they can perfect their real purpose for being here. Cherish the loves that *seem* to come and go. No love ever leaves. Only in your present concept they *seem* to leave. Love, once given, always remains a part of that soul. *This must be remembered*. Foolish earthly words dissolve in the air, as foam on soapy water. God knows this childish prattle is only the result of earthly pride and ego. It is a growing up process. Too many earth people cling to these worthless words, only to detain them from further growth. Until *all humans* realize the *great love each individual soul possesses*, the *real God love* within each, there will be misunderstanding of God's purpose for your being where you are.

Because one does not need the experience through which another is going, one feels the other is doing wrong. Here lies the misconception of life. Remember what is *wrong for you may be right for another in his growth*. If a situation looks negative to you, remove yourself from taking part in it. Step aside for the other to learn from it. Then continue helping them up another step. If only earth people could look at all of life as a school in which all are learning different ways of growing to perfection. So-called mistakes only strengthen one's desire for finding the right solution. So it is with all souls!

You burn wood for warmth or pleasure. Never do you think about the proud stately tree that these pieces of wood were once a part. When one carelessly drops a lighted match, or causes other fires, one is destroying life! The same is with wars. The outer shell of man is destroyed, yet the soul and real you is never destroyed. All of nature returns again and again to bring beauty and perfection for all to enjoy. So it is with God-souls who return in different forms to give beauty and to grow in perfection. Do *not* retard yourself by absorbing and criticizing other's actions or experiences. Take what is needed for your soul's growth and wash away from your mind all other memories of unneeded or unpleasant events. Your true God-self instantly closes out unneeded experiences or does not even recognize them as existing. When one fights or condemns another, it is only because of false earth concepts of what is right or wrong. God sees only good from each action.

*December 12, 1965*

Past events and experiences, whether they are sad or happy, are *only* for a learning; not to go back to and feel hatred, resentment and remorse day after day. You can never change the past, only the future is in the molding stage now. Concentrate your energies and thoughts on what you have learned and what you desire for yourself now and in the future. Only go back to happy memories and the lessons you have learned from all experiences that you can use now. Forget the resentments and take the learnings from these experiences only.

There is a parallel to everything. What would be the purpose of going to grammar school or high school if you still have to go to college to learn the final way to go into your adult life equipped with the knowledge to cope with life's problems? Why can't we

just go to college right away from the beginning? The same reason applies to our soul's growth. We have to take a step at a time. We must learn to have patience with those that are one or two steps behind us all the way through life. Remember, there is always someone a step or two ahead of you, also.

This is life. All will be equal in knowledge and growth, but time is needed.

## Footprints

The early morning dew  
Leaves footprints where I walk  
Reminding me  
We do leave something behind  
As we travel on through life  
I hope the prints I leave  
Will be happy ones  
With those I have known  
Throughout this lifetime

*September 10, 1970*

No matter what we have done or what we have said or how guilty we may feel ourselves, God *holds no* resentment against *anyone!* Only we hold ourselves in bondage.

Remember, this God love is only beyond your sight, not beyond your reach!

## **God's Love Is Here To Stay**

The deep love we possess  
Which we fail to express  
Brings us unhappiness  
God so loved the world  
He gave love to each boy and girl  
Worth more than diamond or pearl  
You must give of this love today  
Give it to all who come your way  
And soon the whole world will say  
God's love is here to stay!

## When Father Calls You Home

The amount of strength you have  
You do not know  
Until a time of sorrow  
Strife or woe

No limit to the helping hands  
Unseen through they may be  
They guide you through  
The dark roads  
And help so you may see

So fear not my wondering child  
As on through life you roam  
For some day you will see us all  
When Father calls you home

(written at doctor's office.  
Saw crippled boy)

*February 21, 1969*

Our joys increase with sorrow. The release of any emotion stimulates the God within, thereby releasing more love to the world. Without sorrow we become listless, even restless, due to the sameness of our existence. So when sorrow comes bless it for the overall good it will do. Love as though it were the last chance you had to love. This is one of the secrets of life—the intensity with which you do anything! You are generating power others seem to lack because of this enthusiasm! I should say the ‘intensity of enthusiasm’ is the secret of a wonderful life.

If you become interested in everything and see its beauty and God purpose, your life will be so full you will never have a lonely moment. Your interest alone, even if you do not take an active part in it, makes you a part of it! So you become a part of all of life. You generate power and power is given to you to do all things, thereby releasing all restriction on what is possible or impossible.

Nothing is impossible. Only in one’s state of mind can we imagine it as being impossible. With God *all* things are possible. The results from acts may vary but *if* it is possible to visualize something, that something *is possible!*

## Twinkling Stars

More is seen through the still of the night  
Than one could see in broad daylight  
The twinkling stars so serene in their places  
Reflect what we should see in everyones' faces

Rains may come and winds may blow  
But there's one thing we will always know  
When the storm passes by and the clouds clear away  
The same twinkling stars will shin the next day

## The A B C Of Learning

This life—perplexed  
As it may seem  
Is only a tiny part  
Of God's Golden Dream

It's just the A B C  
Of our learning  
For the eternity of happiness  
We are yearning

Our paths are many  
Some smooth and some rough  
But the reward is great  
Though the work is tough

For us He has  
Many wondrous things  
If we only knew  
How our hearts would sing

Look a little above the horizon  
And see the Golden Sun  
It's a symbol of God's goodness  
All rolled into one.

Never be dismayed  
By a cloud or two  
For within a short time  
The sun will shine through

*Jesus*

I have given you this ‘purpose in life’ many times before. Now you must give it out to *all* whom you meet! Peace of mind for all will be given with this knowledge. The so-called guilty souls will release this fear and resume their growth with a knowing that all experiences are for a learning. Know this to be true. Start from here today—all of life’s problems will take on a new meaning. There will be joy in the learning. Each one’s problems will add to your own learning. Do not judge what is good and what is bad. Take the learning from it. Remember, if there was only sunshine day after day and no rain soon all would dry up and blow away. Rain is as essential as sunshine. So it is with all life’s experiences. Take the good from all.

Too long earth souls have been teaching others that God is a punishing God, that God has a place called hell or purgatory for those who do not do as the church says they should. These are only in man’s imagination. He is trying to punish himself when he thinks he has done something wrong. God knows the reason for all these experiences, whether they be destructive or constructive. There is no soul punishment, only a learning to expand your awareness of the perfect God—you! Remember you are here for a learning, each and every one of you. Even the greatest teachers are constantly learning in different ways.

You are never alone in your experience. Many, many others are going through the same things you are. All will or have experienced the same learning in this lifetime, or lifetimes before, or lifetimes to come. You are not singled out to go through physical pain or suffering, all experience it in one way or another. It’s all part of the development needed to perfect the perfect you.

No one should feel superior to another because all will reach perfection, all are equal in God’s eyes. The ones in the grade behind you will be in your grade next. The ones ahead of you know you will be there in your next move. So it is. Some may learn Spanish the first year and you may be learning French. The next year you may be learning Spanish and they, French. Who can say which one is the farthest advanced? So it is with all life’s learnings. One is learning this while the other is learning that. You do understand what I’m teaching all.

No one can judge another’s growth, their soul’s growth, by worldly possessions or positions. This is only temporary. A child can put on his father’s hat and shoes but this does not mean he is capable of doing or knowing what his father does, in your earthly knowledge of growth. Yet this child’s soul’s growth could be far greater than the father’s! This only God knows. Learn to look at each person you come in contact with as one of God’s teachers and learn what you can from him. Each one has something to give to another, whether you are aware of this or not. All contacts are for a purpose. Know this to be true.

### **Soul's Growth**

When all earthly souls cease to call man's different earth experiences, or learning, 'sin,' they will have developed a tremendous awareness of the true God within. This knowledge of knowing all experiences are for the soul's growth will bring a new peace among all peoples of the earth. Know this to be true and work towards it. The misconception of earthly experiences has long put fear into man. How else would you learn and grow? Do you not read past history, past mistakes to learn what not to do? Are not these men who made these mistakes teachers to you now? No experience is a punishment, only to earthly eyes. God sees the learning many are experiencing through these events. If all would look to the learning from everything that is taking place all around you your growth would be that much faster. Remember always, there must be a 'villain' to have a 'hero.' So it is in all life's experiences. The so-called unpleasant brings the pleasant, or shows up the happiness to a greater degree; or, one's appreciation of happiness is that much greater because of having gone through the unhappiness. This is all part of your soul's growth, or God-awareness.

Many who have awakened on this side or in this dimension realize why these so-called problems have arisen. They are eager to return to earth for further growth. Thus, the many so-called 'haunted' places are souls desiring to return to earth to complete their learning.

Man's greatest learning is to know *there is no sin!* This name was invented by mortal man, not the God in man. All of earthly life is for learning, a growth towards perfection. How would you know what was right if you didn't know what was wrong? Remember you are teacher and student at the same time. You are learning from your experiences and you are teaching others who see you go through these experiences. Remember all souls have gone through these experiences, either in this lifetime or many lifetimes before. So judge not by what one or another is experiencing. You will or have gone through similar experiences.

*October 18, 1965*

When all earth people know there is no such thing as 'sin' man will have developed to a great degree. So-called sin causes anxiety and fear, thereby retarding one's development. Each experience, whether it be destructive or not, is only a learning one must go through. This is one of the greatest teachings man must learn. I cannot repeat often enough, *all* of life's experiences are for a learning or a teaching. God does not call it a sin because you have not learned what others have learned. He knows in time you will learn, too.

*October 16, 1965*

*Jesus*

## No Sin

Remember, the Ultimate of God perfection is the perfection or total awareness of the God in you. Knowing your purpose for being here speeds up the desire to perfect your awareness. It is the giving *out* of self. You will cease wanting for yourself because you will know your needs are met without searching for them. By the giving out of your *God-love* all that you need is automatically drawn in. Your hand need only be used in giving, not receiving. For as you give you are receiving within.

When one expresses, "I feel so empty" it is false to the extent that you are filled with 'self-pity' or self-consciousness, and that is nothing but it takes up the room of awareness of other's love and understanding. Forget self and give out love; the empty feeling leaves immediately. Remember what you give out you get in return.

*Paul*

You must know there are many of us among you at all times. If you feel you need help outside yourself, God helps you through different channels that open up your *own* storehouse of knowledge which is tapped into all universal knowledge. One must know there are basic laws, or awareness, that fit all so-called problems. This is your learning. So-called 'sin' is another lesson to learn. God does not punish you because you did not know better. You punish yourself because you physically miss much happiness by going through these experiences. Some experience mild teachings compared to drastic teachings others need. Many are learning through each other's experiences, thereby it is hard to differentiate who is teacher and who is student. One must know, for perfect harmony and peace of mind, all around must feel the same peace and tranquility, so each must help the other to attain this state of awareness or development. There *is* peace on earth and all around, but *until each comes in tune with this state* of being they do not recognize it or feel it.

*October 16, 1965*

*Jesus*

Sincere religious men and women continue to try to bring souls to Christ by fear. They are spreading God-love the wrong way. If people come to God because they fear punishment if they don't, then it is not because of the love for God but the fear of God. How can we give out love if we fear the Father of all love?

I still say we do not need churches to live a Christ-like life. When all souls know their real purpose man will look at man with a sincere love. They will help their brother man because of the sincere love for harmony all around. You say man would not show love if there were no churches. If it takes a church to make a man give love sincerely then man is of little faith. He alone is a temple of God. All souls are temples of God. God knows we are all in stages of learning. He is not condemning people who have not recognized this inborn love. He knows it is there and it is being used in the only way the individual person is capable of showing it. We are the ones that do not recognize the stage of love the other person is trying to show.

Recognize this love in all and you understand the other's actions. Too many think they are Christians and love God but they do not *live* this love in their daily lives. One cannot swallow up all the good and hold it for themselves and expect others to show love to them because you have all this good and they do not. Sharing is done in many ways. If you feel you have all this God-love, give it out. Do not feel superior to others. Love is

‘giving’—giving in many, many ways. Not just money—money is cold—kindness, respect and making each one feel as much needed as the other. This is real love for one another. Just to know you are needed and wanted brings a joy no money could buy. You could be sitting on a pile of diamonds and be the loneliest person in the world. Only by sharing this God-love do we grow closer to God. This is the only road to eternal happiness.

One can give millions of dollars and yet he has not found happiness. One can gain all the knowledge in books and graduate with so-called high honors, yet he is empty because he lacks the love of others only because he was not aware of his own God love and did not give it out so other’s love could come in. People are so busy trying to cram so-called knowledge into their heads that they forget to feel the ‘soul’ love or give out their ‘God-love.’ This is the first lesson we should learn—how to teach and recognize the ‘God-love’ in all. Soul development is your true purpose on this earth—book knowledge comes second. You cannot teach a child to run until he is able to walk.

If all students felt the love of all other students and teachers their learning would be far greater and faster. The blocks of self-consciousness, rejection, financial status and physical appearance are the real stumbling blocks to progress for so many in our schools. These inferiority complexes cause many to end up in mental hospitals. Each one of us is to blame. We claim to be Christian, God lovers, yet we do not see each other as all children of God. We see only the material side of a person. God never judges—He *loves*. That’s the difference between God and man. Man is constantly judging and competing instead of cooperating and loving.

Always remember, your neighbor, your barber, your beauty operator, your milkman *may have been* your brother, sister, father, mother, husband, wife, *or will be* in your next lifetime. So be kind and help each to grow and learn all they can in this lifetime. Their lives will be better not only now but in many lifetimes to come.

No one knows the real relationship between one another. Only your soul mind has this knowledge. Your present father and mother may have many different relationships to you in former lives.

You must understand *every one had free will* to come back in the exact location and family they so chose to be in. This is the free will God gives to all. Each of you came back for a learning. This also is your choice.

*June 12, 1969*

*Jesus said,*

“What if I were to appear physically alongside of you as you walked down the street or as you faced your boss or your school teacher—how different would you feel? Would it give you more confidence? Yes? Well then, this only proves that you do not feel me spiritually now for I am alongside of you constantly. Awaken your spiritual self—this will build confidence and there would be nothing that could bother you or hold you back from living a God-like life!”

## **Windows Of Heaven**

The windows of heaven  
Are opened wide  
For all the world to see  
The love God has  
For every man  
Is the goal He set  
For you and me  
You too can see  
This heaven  
When you open  
Wide your heart  
Give of this love  
And you will do your part

*April 28, 1970*

Pushing the little fellow out to get you on top is not being successful. God sees all, knows all. Do your actions show you are developing a soul's growth; or just accumulating material things? The love you are giving and receiving, is it sincere or false? How solid a foundation is your faith built on? What will you take on through eternity? Remember, you are in eternity now. What you have gained or learned—will it endure or will it decay and crumble with age? Love of God survives all floods, fires, earthquakes, man wars and death! If tomorrow death should overtake your body what have you to show God? Think about this!

Do you love the child in your family who is in college more than your child who is in grammar school or kindergarten? Do you have the same love for all of your children, regardless of what stage of learning they are in? If this be true of human beings how much greater is the love of God for all of His children in all their different stages of learning.

All the preaching in the world will do no good if the soul is not in the stage of development to understand it. No more than everyone can heal the sick and be clairvoyant all at one time. Everyone has the potential of these perfections but they are in different stages of growing. The trouble is the ones who have reached the stages of perfection in different phases of learning do not understand others who do not react like they do to the same situation. They forget the other person may not have perfected that stage as yet, even tho they are an adult.

By putting fears in these people and criticizing them, only retards their growth. Love and understanding is needed.

## God Is There

When you're feeling lonely  
And you say you're awfully blue  
Just think of many that you love  
And picture them with you

For thoughts are things that can be real  
If you but think them so  
And know that God is there with you  
Wherever you may go

I never have a lonesome moment  
Or time to feel I'm blue  
For every sleeping, waking moment  
I feel God's with me, too

I know He knows my weakness  
And the blunders that I make  
Though He is there to guide me  
In every step I take

We all must have our trials and errors  
For this is how we learn  
For we will all be perfect  
When to Him we will return

*July 19, 1966*

The joy one gets from 'anticipating' is too great to describe. Even the actual event is less enjoyable. Now if this is the truth, why isn't it possible to be joyful most of our lives if we so wished? Or is it that we mortals are prone to look at the dark side of life more often than we do the sunny side.

Our 'imagination' is one of the many wonderful gifts God gave us. There isn't a place on earth that we can not go with our imagination, and we can do anything we wish to, also. We can be whatever we want to be just by using our imagination. I don't believe anyone realizes to what extent their imagination can go.

All are equally blessed with this gift. Again, remember God said, "Be as little children." All children have a wonderful imagination they use. It gives them happiness and hope. Without leaving their room physically they project their minds and imagination to far off places. They have imaginary playmates and even food that is delicious to their taste.

No one would ever be lonely or unhappy if they used this God gift to bring happiness to themselves. You would never have to eat to walk alone, just pretend other people are there with you, which in truth they actually are. God so planned that you would have Guardian Angels watching over you constantly, also teachers of higher intelligence ever ready for your beck and call. But how few of you realize these gifts of God!

Start today to use these gifts and see how happy you will feel. Not just for a moment but throughout each day. When you pray you feel God hears you so why do you think He does not hear you when your heart cries out from loneliness! Your thoughts bring you in contact with these forces. All thoughts are light vibrations. These electrical impulses contact other impulses and unite. They are automatically drawn together. Only your unawareness closes them out. Open your mind to them, let them come through to bring you the happiness you deserve!

## Love

What mysteries lie behind this word  
More powerful than atom power  
That quickens every heartbeat  
And poets write about for hours

No human can escape its feeling  
Or life would not be worthwhile  
It's free for all to give and take  
It's what make people smile

It's given to each tiny soul  
The moment life begins  
For God gives it to everyone  
But hides it deep within

One has to guard it on its flight  
Direct it on its way  
Protect it with sincerity  
Make sure it's there to stay

For each time you are giving  
This precious gift of God  
You are making Heaven on earth  
As on through life you trod

*April 9, 1970*

God gave each of us something to give to each other. Don't try to be like someone else for then you are false. Be yourself. What you have to give *and the way you give it* is what is important and makes the distinction between people. Don't go places to see what other people can give you. See what you can give *them*. This is God's teaching. Most people keep looking for what someone can give them. They feel sorry for themselves because they are lonely and they say nobody loves them. Why-Why-Why! Ask yourself what have you given to others—not yesterday, today—what are *you* giving? You are not rich by what you accumulate but by what you *give*. One of 'God's Fountains of Youth'—'Giving!'

Most people are trying to seek companionship with others, to know others—*Know thyself first* then you will know *all others!* Secret number two: You will never be lonely because you are composed of many, many people. Most people really don't want to know the truth about themselves but still they are searching for an easy way out in this life. One of the hardest lessons you each have to learn is learning to know yourself! There is a false teaching saying, you must love yourself first, before you can love another. Too many love only themselves.

GOD says, know thyself, but "love others." This does not mean you have to hibernate or spend hours in meditating because from moment to moment the *real* you is telling you what to do. Who are the deaf ones? Not those few that you know physically are, but *each of you!* You can't hear this inner voice trying to direct you each moment. You spend more time running from yourself than anything else. You are priceless jewel! Your richness you could not put a price on. Realize your worth. The only way is to give out with your *real* self, not what you have learned from books or academic schools. Just the teacher within has all your undiscovered secrets to your richness. *Seek that teacher within!*

Be yourself. The minute you try to be like somebody else you *lose your identity*. You are here to perfect the *real* you. Why waste time trying to be like somebody else? The ingredients that go into making a fine character are good morals, being truthful, understanding, loving, patient, tolerant and forgiving. The secret of success is to know how much of each is needed! That is where each one becomes an individual, by his selection of the right amount he uses! And knowing when to use it.

## Our Little Helpers

What beauties lie in the bright blue sky  
That very few eyes can see  
But just beyond are the angels  
They watch over you and me

How could anyone be lonesome  
Or feel that no one cares  
When the very air around us  
Is filled with Angels everywhere

They know our every action  
And thoughts we try to hide  
For Jesus taught them what to do  
Each one's a Special Guide

So if you catch me staring  
Away out into space  
I'm only watching the Angels  
That come to light my face

*November 23, 1962*

Schools stress too much on how to make money instead of how to build character. You *never* find wisdom in books. Through experience you *gain* wisdom. No one else can bring out the real you but you.

Jesus never *sold* what was given to him free. You all have what you are searching for within yourself. Don't let others exploit what *already* is yours!

How could you ever find what you are looking for on the outside when you already have it within. It is like locking a door with all the food behind it and going out looking for more on a desert! You have what you need already. When you realize this you have one of the great secrets of life. God's personal secret He has shared with all of you from the beginning.

Do you feel prejudice for other races? Then make a test. Take ten people of all races, or twenty would be better—let them blindfold you—then shake hands with each one. Can you tell them apart! Is one tougher, meaner, more ignorant than the other, by the feel of his hand? This way you are physically coming in contact with them. Is there any difference? Honestly, you are blinded by what you see and not by what actually exists! Remember, by touching the hand of each you cannot tell which one is black, white, yellow, or if he is rich or poor, a doctor or student. So how can you honestly judge by your earthly eyes who is good or bad! *God judges not for He knows all are as good and precious as the next.*

*January 23, 1966*

Remember, there is a difference between being humble and knowing the right answers come from within, and receiving them at the right time, to solve each moment's problem, and feeling superior toward others, because you have found these answers. The latter is your ego, and when ego enters into your outlook you lose the inner knowledge protection, because you are beginning to think you are solving these problems, through the knowledge you read in books. You begin to let your conscious brain take over and then you too, make wrong decisions, and blame it on your inner knowledge. By your egotism you close the inner channels from helping you. Only through humility do you continue to receive this great understanding of all problems. One seeks outside help only when he has closed off this 'inner-all-knowing' source.

Let it be remembered, to try to gain superiority and financial gain from a knowledge that was given you freely you not only lose this knowledge but give other knowledge out falsely! Never try to be God by using what God gave you freely. Give it to others freely without a puffed-up feeling of superiority, or in the end you will lose all admiration from others and self-esteem and respect.

Many intellects feel superior to others because they have memorized what others succeeded in accomplishing. They feel they have accomplished the same thing. This is false ego. You may learn how to use another's knowledge in helping you accomplish something fruitful yourself, but you cannot gain respect and love from others by living off the glory of someone else's work. All KNOWLEDGE you gain is for the purpose of helping you with your REAL purpose in life, and to help you work it out to its perfection. Never feel superior because you remember other people's great works. You must do great works of your own. You have the power, the inner knowledge to handle all situations as soon as you have confidence in yourself. Don't rely on others for this help—first seek within—you will be directed right.

Trying to explain to others this source of strength and knowledge may help them also. Accept it and use it, knowing it is always there in any situation. By using what you've

read or heard confuses your daily living. Let this knowledge be examples to look at but *not* to glorify as your own accomplishments. Each has something to give to the world in his *own* way. Seek this *real* you. Know this is right for you, not what others do. Just what you know to be the real you. Who can say which is the greater, the tiny speck of sand or the whole beach, for without each tiny speck there would be no beach! If we could all remember each little part we play contributes to the great overall picture. Each is important in his own way.

## Something Worth Chewing On!

You can *never* show strength by force.

You need *never* “show off” to God.

Wisdom *never* comes from books alone.

If one knew his *real age*, he would be ancient at birth.

*Your* God is *only* what *you* make Him.

*Seek* not the applause of the multitudes, but the *deep love* and *understanding* of *one friend*.

You are *not* what you *say*, but *what you think*.

Love can *never* be *bound* and *secured*.

The *real* life you live is *in your thoughts only*.

Your *real success* is never known here.

Good need *never* show its *halo*.

God has all the *patience* in the world, only you are *impatient*.

Rain and tears *bring sunshine* the *morrow*.

Love is manifested *from the soul*, *not the lips*.

The *greater you* is *unknown* to *man*.

He who *gives* is *receiving*.

*Love* is *everywhere*, though you *cannot see it*.

*Great* is he who can say, “*I will try again*.”

*November 21, 1965*

Much has been said about 'ego'. Ego is what you are making of yourself. Ego can be 'God love' or it can be 'self love.' Self love is not God love. There is a great difference. God love is sharing. Self love is taking to one's self as much as possible in material possession, or wanting admiration from others, or control of others for personal gain only.

God love is sharing all the good, all the love, all the material gains one makes in this existence. This is true God love, or 'earth ego' used in the right way.

Most ego is man-made to fit a description of an individual's personality in relation to society. It really is his stage of learning. He expresses only through his soul's growth, regardless of how much so-called education he has in this earth existence. He still can only use it as wisely as his soul's growth allows him to use it, or as much as his soul's growth knows how to use it. The same would be said of a tiny child. Give him a million dollars and he probably would throw it around, play with it, not realizing its real worth—not able to use it wisely. So it is with education. One must learn to understand and know one's soul growth before he can use book knowledge wisely. Earth age is only an outward sign of your physical growth, not your soul growth. That is why many become mentally ill; because they do not have the inner growth to cope with the physical growth. Follow me?

All must learn first things first, or you lose much of what you are learning, or you will not use it in the correct way.

Modern society feels everyone should have a good education through schools, but don't forget the best teaching comes from understanding each other and accepting each other for what they are in their stage of soul growth.

Again I say, *do not judge* the wisdom of the soul by earthy possessions or position. Sometimes the most humble person is the nearest to God perfection which you are all seeking to attain. Seek this inner love of a person and soon you will know the depth of his wisdom. The greater his love for all humanity, the greater his soul growth and wisdom. God has no place for all these earthly possessions—you take none of them with you—only love, understanding, tolerance, patience and faith you have gained in your earthly experiences.

*May 16, 1966*

Tolerance is understanding each soul and giving love and praise for what the individual has accomplished, even though it does not come up to your expectation. Learn to take the good from each one's actions. Tolerance is giving brotherly love to all mankind. Tolerance is forgiving errors others make while learning. Be sincere in this forgiving and be sincere in the love you give to others. Learn brotherly love for all.

Tolerance and love for all mankind is the Truth this teaching is all about. God sees this all unfolding as each one becomes more aware of his own potential!

## Worth More Than Gold

God speed that love that heals me  
God speed the love that cares  
Though my weeping is not seen  
My soul has felt its sting

I search—I look—I wonder  
I dream and feel its warmth  
Through lacy vapors I feel its touch  
Evasive though it seems

What mysteries lie beyond the sight  
Too wondrous to behold  
That makes my soul keep searching  
For this love worth more than gold

## God's Helpers

While lying here I watch the angels  
Flying to and fro  
What they are doing and what they are saying  
I'm sure I do not know

All I know is through my illness  
I felt them very near  
As though they were my dearest friends  
Who came to visit me here

This hospital is filled with many  
Who never realize  
These Angels will be waiting there  
Each time a patient dies

Their missions are many  
They work for us all  
These are God's helpers  
Each time that you call

*Jesus*

Let me express myself through you, to the group, who are sincerely trying to bring forth my *new* teachings. Again I say, my teaching is *simple*. Keep it simple in your living of it. You must first understand all experiences are for a learning, a learning for the soul's growth. Do not call it 'bad luck' or say, 'God is punishing me for something I've done' when reverses take place. These are not reverses, but lessons. They may be reverse of what *you* would like but you would not learn this one phase of learning unless you experienced it first. Everything has its purpose and everyone has his purpose for being on your plane of existence.

The experience one goes through does not mean another has to go through them during this lifetime. He may have gone through them in a former life or former experience. Each one's soul growth is in different degrees of development. I say development because all will reach true perfection eventually. Your purpose is to help others to understand why they are going through these so-called problems. If all could understand the growth they are gaining with each experience their problem would become easier and joy would radiate from their countenance. So I say, show your love for each one experiencing difficulty with their problem and explain the growth they are gaining through this experience. *This is the secret many are searching for!* Remember, it is *not* what you have to go through but your *attitude* and *knowledge* gained from the experience. That is why I shed no tears because I know the outcome and growth.

Your so-called illnesses and setbacks are only blockades to make you stop and learn something you are overlooking; to redirect you onto the right road. To give you knowledge needed before you can go on. *Bless* these so-called setbacks and search for the learning. Listen to that wee voice of your 'teacher' and 'guide' to direct you on your journey through life.

Just knowing other people are loving you and understanding why you are going through these experiences lightens one's burdens. This why I taught "Love one another;" all are in stages of learning. As long as you are on this plane of life you are in a stage of learning. Remember this, my children!

## Love Waves

Love waves surround you  
From thoughts sent far and near  
Too great to grasp in moment's pause  
Divine because it's all from God  
Though many are the sources  
Healing winds continue to blow  
And soon will reach their goal  
Though barriers many have blocked the way  
Its mission will be won

*Jesus*

You are only 'turned' into the healing vibrations that your mind is 'tuned' into. If you continue to think there is no cure for your illness, there is no cure because you are tuned in on a negative channel. The healing channel cannot get through. If you are thinking disharmony, disharmony comes in.

All of mankind is so used to listening to all types of news, whether it is constructive or destructive, that your tuning stations are constantly being turned from one vibration to another.

To get well from any illness you must have people around you who are thinking and talking good health. The more love people are sending you the faster you will get well. But the important 'contact' must be made by you. You cannot receive anything from stations or vibrations you are not tuned into yourself. All the prayers and love in the world would do you no good if you were not tuned in to receive them. Remember this important message. Reread many times.

A man would die of thirst if he failed to open his mouth to receive the water, even though there were gallons of fresh water right in front of him. So it is with healing. One must open up to receive it. The same with all knowledge and wisdom ready to come into your consciousness, if you but open your channels to them.

God knows the purpose for which you are obtaining this wisdom and knowledge and healing. If he feels you will misuse it he closes the door until you are in the right receptive mood.

HAVE OPEN DISCUSSIONS WITH THOSE ON YOUR SPIRITUAL LEVEL and we will come in to enlarge on messages being received and being sent. Many will say they never get any impressions or they don't feel any closeness to the spirit world. Feel sorry for these individuals because they are surrounded by all knowledge but their own conscious brain blocks out this channel by keeping constantly occupied by trivial earthly events of no importance. They search for this wisdom in books only. They have forgotten the greatest teachers of all are the invisible ones. Between lives they are aware of these teachers and wish to return to earth to continue their learning.

Regardless of what is being broadcast on any of the television stations there on earth, you could not hear any of it unless you were tuned in to receive it. The same with spiritual knowledge. It is all there on many levels of learning for you to tune into! Too many scatter their forces and won't take the time to learn one step at a time. This is the only way this knowledge can be of benefit to you.

*September 20, 1969*

*Jesus*

When will man realize he has the greatest built-in 'Receiver Set' right within himself? This is better than any material instrument made by man. God gave each and every soul this wonderful gift. He also gave man free will to tune in on this set for any and all thoughts, power, and knowledge which he desires. Only by your own thoughts do you reach different levels of learning through these channels. Only through years of experiment do you realize the uselessness of many of the things you tune into daily.

Finally you realize you have the choice to zero into the 'Spirit Power' which is God-power. It is a power that eliminates all fears and worry. It is controlled by God alone, the giver of all, and if man would let God help him to overcome unpleasant earthly

experiences how beautiful life could be. Man being in a physical world quickly loses his 'Spiritual Faith' and puts his faith in material things only thereby closing the other channel off and creating more problems for himself and others.

## **Just Beyond**

Beyond the glitter of the lights  
Beyond the sounds of life  
Beyond the actions of humanity  
With all its struggles and strife  
There is a peaceful atmosphere  
Where love and hope and faith abide  
It's all around though few can see  
Though the channels are opened wide  
But few "tune in" and feel this bliss  
The mad rush of human life  
Destroys the life they seek  
The young want to be old  
The old want to be young  
How few want to be where they are

*April 26, 1969*

When a child reaches his teens you must realize you are the one that has lost faith in God, not the child, because through these formative years this divine child of God has come a long way. Now that you have been teaching him self-reliance you rebel when he chooses to be different than what you think he should be. How can he rely on his own judgment unless he is given a chance to prove he can. The mistakes he makes are only lessons in learning 'what *not* to do.' Perhaps you adults are the ones who can not take these mistakes, not the teenager. So you are the ones that are rebelling, not the child. How quickly you forget the many things you did as teenagers that your parents opposed, yet through it all you learned. This is the important answer to all this generation gap. You are forgetting these children are learning every step of the way. You let your ego dominate many decisions; your 'pride' and 'ego' are very weak structures to cling to because they let you fall 'flat on your face' when you least expect it! Remember, the same great power of God is motivating your child that is motivating you. He *loves* each one equally, *regardless of what actions they are going through*. You all must realize each one may need different experiences to gain the same knowledge. All of life is a school in which you all are continually learning in one or more phases of your ultimate perfection. Your earth age means nothing where your schooling in 'Soul Perfection' is concerned. So let each one develop in whatever way he is capable of developing.

What good would it do for a teacher in school to give to each student the answers to all of the problems? When they left the school they would be unable to work any problems on their own. When she teaches them 'how' to solve the problem then they can solve it on their own, regardless of where they are. So it is with child training. If you constantly have to keep your children in sight to watch every move and correct every move they *never* will have confidence in themselves to work out their future problems themselves. Remember it is better they fall when they are young than when older. They can pick themselves up more quickly and will try again in a different way. Remember, a child would never learn to walk alone if you constantly carried him around and held him up. Think about this!

*Jesus*

Why does one constantly feel he has to have God's teachings repeated over and over? Did I not make His teachings clear and simple so all could understand? Why do so many put complicated interpretations on them?

No one need have alibis for his actions. Seek not escapes for actions—learn from them, then go on. You are punishing yourselves, not God the Father of all. Would He not have you beside him now if you had learned all? All go through this schooling to reach their perfection. Then and only then are you one with the Father!

You are now all part of the One; at perfection you are One with the Father, never to separate again. Re-read to understand.

*September 28, 1969*

*Jesus*

Though there are many who refuse to believe this, you have lived many lifetimes before and will live many lifetimes again before you reach your perfection. No one knows the growth of a child's 'Soul Mind.' You only know the age of his body. Never underestimate the *intelligence of any soul!*

*August 16, 1969*

Did you ever stop to think if the scientists could prove to you this inner knowledge that is available to everyone they would be giving away their 'trade secrets.' Stop wishing scientists would prove this so-called psychic knowledge. You must realize you are your own scientist and only you can discover what you already have. This is your 'divine individuality.' Only you can discover the uniqueness of this priceless reservoir. Everyone has the same chance to discover his own 'gold mine.' No one else can discover another's. As in former lessons I told you you were teacher and student. This means everyone is, regardless of age.

Now you may be surprised when I tell you you are your own doctor. Other so-called doctors can only diagnose your illness but you yourself have to cure it. A doctor may operate and remove foreign objects but you and your millions of cells have to heal the incision. You are a judge or attorney. Every day you are judging what to do in many actions. You are an attorney defending yourself against other's accusations. I could go on naming any so-called specialized field and you will find you are one, also. The difference lies in the fact these 'specialists' are earning a living by these specialized fields, because many earth people have not discovered their own qualities in these particular fields. Sooner or later every soul will develop to his full potential and will realize that all have the capabilities of every specialized field. The uniqueness of each individual is how he expresses this knowledge and his giving out of it to those who have not reached this stage of awareness.

Every jealousy, hatred, and resentment vanishes when you, as an individual, realize your capabilities. Each has every desire, every wish, every hope, every love that he is capable of thinking of already within himself. Think about this and you will realize the truth of this statement.

*March 26, 1969*

God has a purpose for not wanting science to take over this belief in Psychic Phenomenon because *this is a science that cannot be controlled in a test tube*. Each individual is his own scientist and only as each individual recognizes his own ability to use this God given power will it do him any good. All the knowledge or psychic powers other people have could not do them any good unless each as an individual scientist recognizes his own powers and uses his own powers for the betterment of himself.

If science once thought it could control psychic power it would delve further into it. But it already realizes its powers are scattered throughout the world and in different degrees in each individual. So while you are waiting for scientists to come out and back psychic knowledge the scientists continue to use their own psychic ability to further material discoveries.

This is one proof God gave each man destiny over self. He intended that you stay as individuals, unique and divine. He did not intend that any man or group of men should have power over you, to be able to force you in one direction or another by using this psychic power in the wrong way.

Once scientists recognize this tremendous power that is all around each of you they will try to 'harness' it and use it to control all of humanity. Even as individuals God does not allow those that would mis-use this power to have it very long. He closes it off and then you have the fakers and charlatans who are still trying to make money off this God given gift. These are the people that give this priceless gift a 'bad name' in the eyes of many.

So when you keep hoping scientists recognize this power you better stop and think. God is still the wise overseer and knows that no one group should have control over this precious individual God given power.

This is my answer to what I have been striving for—the hope that everyone realizes his own worth in this beautiful world and seeks to know himself better. As he does he will know everyone better and more peace will spread around the world.

One can readily see what scientists did with the tiny atom. They put many together to make the most destructive force in the world. What would the scientists do if they could control all of your ‘wills.’ You would be nothing but puppets being pulled and swayed in whatever direction the few in control wanted you to go. So again I say, be thankful God is not letting scientists know how to control psychic power.

Remember you need never be ‘envious’ of anyone else because right within yourself you have everything that can be developed to be exactly like the one you ‘envy.’ But, if you let this false emotion block your own self from developing it may take longer to attain this accomplishment. Remember, anything anyone else can do you can do. You may not be able to do it in one lifetime, but the other person may not have been able to do it in one lifetime either—this only he knows deep in his Soul mind. Never envy another. It only shows lack of confidence in yourself as a child of God. Remember always, God made every Soul equal. Each has the same potential and will attain perfection in due time. Never envy another but use him as an example of what you would like to attain. Many frustrations come from trying to be like someone else and not knowing ‘self.’ You would not try to start in college and work down to kindergarten. You know better because it is clearly seen you need to take the first steps first. So it is with all accomplishments; don’t rush into something you don’t have the foundation for. Build from the bottom UP!

This is the trouble with your young generation. You, as adults, have given them things they should have worked their way up to and earned, but without any effort or knowledge gained they are given these goals only to find they mean nothing to them. Then the child begins to search for something he can feel he is doing on his own.

You better start denying the luxuries of life to the young and let them have the pleasure of attaining these goals by their own initiative. Stop giving them material things—instead give them love and understanding and confidence to accomplish whatever they were put on this earth to learn! These are the *most important* gifts you can give them!

## We Love Him So

New meetings—new greetings  
Awaken our soul  
New energy—new hopes  
Restores our faith anew

New friendships—new thoughts  
Are food for the soul  
New growth—new wisdom  
For each experience we have

New struggles—new heartaches  
New burdens—new griefs  
But deep within we feel the touch  
Of God's reassuring hand

So dark days brighten  
And hopes renew again  
Enjoying all God's beauties  
The flowers—the trees—the sun

A distant star—a blade of grass  
Holds mysteries yet unknown  
So much to learn—so much to know  
I guess that's why we love HIM so

*Jesus*

When you recognize the Christ in you you are in tune with the Father of all the Universe. By concentrating on what you want to learn the all-knowing teachers on this side come in and help. But you must be *sincere* in wanting to use this knowledge in the *right* way. You are each being trained through your many lifetimes to learn only certain knowledge and wisdom so you, in turn, can be teachers on this side. Only deep within each one is the answer to what you should strive to perfect as an individual. Remember every type of teaching is just as important as any other.

*April 20, 1969*

*Jesus*

How long will it take religious leaders of all sects to know there is only one God? Even though each one calls him by different names He still is the same God—Father of all creation!

Why is it that man is forever trying to make his life more complicated by material things and with new words that mean the same thing? You should be spending more time trying to understand each other and learn the real reason you are on this earth. So many of man-made things are unnecessary. If this time and money were spend delving into your deep consciousness you would understand all people better.

We see all this racial prejudice, how futile it is when one *stops to think* that when a man dies only his invisible soul goes on in eternity. Is this soul black, white, yellow or of any distinguishable color to separate one from another? Is there a supreme being standing guard ready to separate each of these souls according to color, race, or creed? Do you actually believe this? Just what is your concept of life on the other side? Are there just going to be a select few walking golden streets and living in gold castles? How will you feel if the dear friend you loved or a dear brother you loved were not there though they had ‘gone over’ before you? Would you be happy? Could this be ‘Paradise?’ I hardly think so. Think about these questions and ask yourself was God right when he said. “All men are created equal.”

God did not say all men would look alike in color or all men would be ministers, doctors, or farmers. God created the souls of men. Human beings make the body that holds the soul temporarily. Only the *soul* returns to God, the body returns to the soil. Maybe we would have less prejudice if we remembered these few things.

## The Other Side Of Life

I often sit and wonder  
Just what it will be like  
When we cross the bridge  
To the other side of life

Will the flowers bloom and smell  
Will trees be green and shady  
Will streets be made of shining gold  
And diamonds sparkling everywhere

Or will our souls continue on  
In search of God-perfection  
With higher teachers and our guides  
Leading us on through eternity

*October 24, 1969*

## God So Generously Gives

Precious moments swiftly passing  
One tries to recall them  
To slow their passing  
Yet steadily on they go  
So much to be done  
So much to be said  
So much love to give  
But so little time left

The sand continues to sift downward  
One is swallowed up  
By the immensity of God's creation  
And in wonderment of what our purpose is  
And if we fulfilled it  
As our waning years appear

Time I know you cannot stand still  
But please dear God  
Give me a little more time  
To give the love I have to give  
The understanding I have to give  
And the joy you so generously gave me  
Let me have time to give it to others

*October 14, 1969*

*Thomas*

Everyone is at war, if they know it or not, every minute of the day or night. You can never get away from this enemy as long as you are on this earth. You are fighting it constantly whether you are aware of it or not. Who is this enemy? It is a four letter word—man made—called TIME. Think on this a minute or two. What causes tension, fear, anger, unrest, frustration, and ill health?

Tension is caused from lack of time to solve your problems. The great pace society sets is a constant strain on children and adults alike. One is afraid to relax for fear he will not finish all he has to do, or that he might miss something that is going on. You all fear not being accepted in society, not succeeding in school and work. You rush to and fro trying to accumulate worldly goods in hopes of being accepted.

Anger comes from not taking the time to understand the other person's reason for his action. Parents scold and become angry with their children because they are so busy trying to do all the chores before a certain time. They don't take time to find out why the child is doing what he is doing.

You have unrest because you do not like what you have or what you are doing or how society is treating you. You are afraid to relax and let things work out naturally.

You become frustrated because you cannot get where you want to fast enough. All accidents are caused from lack of time. You speed, cut in, and lack courtesy because you are in a hurry to get somewhere.

This is where illness begins. Your cells in your body are in constant conflict with your mind. The natural movements of cells are speeded up in one part of the body and another part slowed down. They 'bump,' restrict, and bruise themselves trying to keep up a pace nature never intended for them.

It's like having the team of horses in front going slower than the team in back of them. They are bumping each other, jerking the wagon and causing chaos. An automobile can't go in reverse and forward at the same time, yet you are doing this to your body. Your mind is pulling one way and your nature pulling another.

This is true of men working on jobs they do not like. Their minds are pulling against their actions. The body is acting one way, the mind wanting it to do something else—thus frustration, fear, anger and illness set in.

Why let *time* dig your grave? Why not know it takes many lifetimes to grow in wisdom. Be as little children—learn one step at a time. Don't try to reach that top and be buried under your own mountain. *Half the things you think you need are useless.* If you need material wealth to hold friends they are not worth holding. They still do not love you, they love what you have.

Start life searching for the richness of each one's *mind*—not their brain, but their *soul mind*. You will be so rich and thankful life will take on a new beauty. The great love you will find there surpasses any you would receive from wealth. You will find peace with each one you meet. You will not have to wonder, 'Do they like me?' You won't have to pretend to be something you are not just to make them like you. You can be the real you, with untold wealth within. Those seeking this inner you will at once feel blessed and richer by just knowing you. Because the richness you have deep within can be shared over and over again and never needs replenishing. It is a lasting wealth each one has but very, very few know it, or know how to reach other people's gold mines.

**Cross the Veil**

Beyond the veil of human emotions  
Beyond all earthly judging  
There is a place of peace and joy  
Where God love rules supreme

It's where you can be yourself  
Without pretending what you aren't  
Where everyone will greet you  
And see the love you hold inside

Fears that held you in bondage  
All hurts from untrue friends  
Just drop away and disappear  
Only true love fills your soul

It doesn't matter what you were  
If titled or in poverty  
These earthly stations lose their worth  
When once you've traveled cross the veil

So close and yet so far it is  
One's conscious brain can't fathom  
The nearness of this wondrous love  
That God gives *all* when you return

*November 26, 1969*

Learn to accept an individual for his true feelings, not a mask he has to wear to please you. Know the true self. Joy will be increase, love will spread. One must be taught how to accept people with opposite natures and viewpoints. After all, how do you know you are right and he is wrong? He may feel the same about you with his knowledge or awareness and you may seem wrong to him.

God made this world large enough for everyone to express in his own way. Yes, you have man-made laws which all must obey, but men of strong character need no laws to tell them what is right and wrong. Laws are no hindrance to them because they would do as the law says, regardless if it were a law or not.

When an individual does express himself freely he may be called way out, insane, or a rebel. Much truth is overlooked due to your society being afraid to be different.

Everything nowadays is mimicked or memorized from someone else. You can only be classed as groups of people, not as individuals. Why do people think that only in the past were there great teachers of philosophy? Man's *mind today is greater than of any time*—only man does *not use his mind*, he just uses his brain where only the knowledge learned in this lifetime is stored, whereas *his mind has knowledge of many lifetimes*.

I plead to all universities, high schools, and grade schools—let the individual have a chance for *self expression*. The rebel in the class may have great knowledge to express. Ask him to do so. Reduce delinquency by letting children express themselves in schools. They bottle up all these emotions and when they burst out they become dangerous, whereas they could become of great help to mankind. *Self expression* is the greatest need of all people. Denial of this pushes one's energies in the wrong direction causing destruction not only to one's self but society as well.

Love a person for *what he is*, not *what you are* and think he should be but for what he thinks and does himself. When mankind learns this wars will cease. Love will be the ruling force. Man will find that *love is a greater force* than all man-made weapons.

*Paul*

My dear one, this is a Truth—that you have been given knowledge to many light pulses ago. I am glad you ask again for clarification of this consciousness that you do know so well.

If earth souls so wish to use the term 'lost souls,' they must place this connection with *earth bodies* only. Even you, my dear, have light pulse moments, shall I say, of being a lost soul—moments when you are not in tune with the wonderful overall light vibrations which surround each of you.

Prayers, or love as we call it, should be sent out to every soul constantly. This word or connecting vibration brings each soul back in tune with the real purpose of your being on this plane. It is only like a loose bulb in a socket. Fasten it securely and the light will shine again.

Each one's purpose on your plane is to gather the loose connections and fasten them to the main connection so as to shine in their own light. Fear not for the God-souls who have left your earthly plane. There are many here who show them the way. None is lost. Only in your plane of existence and in your present thought atmosphere can you feel or imagine them 'lost.' Prayers, as you call them, love vibrations we call them, should be sent out to the souls *walking* in your present vibrations. *No one* is ever lost on this side.

Only in your present concept of lost are there souls lost on your earth plane. This state is only in brain or conscious brain thinking. Right within your midst are souls that feel lost because of your present vibrations not reaching each other. It is only like a loose

connection. Assist in bringing it back and fastening it to the true God-love and it will shine brightly again.

There is only one word that binds all and that is 'Love.' Only the lack of it loosens the light, or I should say, only the misunderstanding or mis-use of it makes one feel like a 'lost soul.' This is only a few light pulses of existence. This you already know but you wish to have it clarified or reassured.

Remember there are souls coming to earth for the first time. They flounder around until they become steadied by the help of older souls. They are like tiny rays of light, not strong enough or bright enough to be alone. Only with other rays do they realize their worth. For unity is the power behind all. Unity is love. Love brings unity and unity brings love. Love is the power, unity is the result!

Remember, love must be shared. To withhold it, one dies. It is the blending or sharing, as you understand it, that brings forth the good on your plane of existence. Nothing—and I mean nothing—can isolate itself and exist. Think about this. Every cell depends upon another to exist. If isolated it needs a container—light or other God-made substance—to continue in any form of recognition. Furthermore, if it is the only thing in existence what purpose would it be? You are needed always, remember that. If at times you feel lonesome and useless, always remember there is someone, something, some soul searching desperately for you! Reach out. Don't withdraw. As long as you exist you are needed. Find your place—search for it! Don't become disconnected. Keep your light shining.

Time, as you know it, does not dim your light. Only you in thought shade it. It is bright and will shine on all through eternity. Each has its place. Each has its purpose. Who can say which is the greater, a tiny bolt can stop the largest machine! The world is only as strong as its weakest soul! Think about this. The world is only as beautiful as you make it! Life is only as beautiful as you make it. The most beautiful of God's creations are only as beautiful as you make them. This is the power you hold. This is the light you give to the world. What good is your light if you do not use it? Think about this. Remember above all—nothing in God's creation is ever lost. Only in your state of consciousness do you feel something is lost. Nothing in this world belongs to you alone so you can never lose what you never owned. Think about this!

## The Wonderment Of Life

The wonderment in all of life  
Makes one breathless  
Such beauty such peace  
And overflowing love  
That surrounds everyone of you  
Cannot be comprehended  
By your conscious brain alone  
It takes deep concentration  
And an open heart  
To let these beauties and love come in

Be still and listen  
To Nature's beautiful music  
The melody can only be heard  
In the stillness of the night  
You also catch the love vibrations  
Being sent everywhere  
And God's deep love is felt  
With His reassuring nearness  
Sleep not away these hours  
That hold all these wonders  
They are for everyone to share

*September 4, 1969*

Only in earth's consciousness do you have such emotions as fear, hate, resentment or unhappiness. Due to the lack of knowledge or awareness of the power of thought you are constantly poisoning the very atmosphere you are living in. Therefore sensitive people pick up these 'thought vibrations' within themselves and they create illness or mean thoughts that they in turn send out to others. Fear of cancer is one that has gripped the whole world. Fear of communism is another, and hatred for one another. So the air is constantly filled with these thought vibrations. As soon as fear of all these things are cleared up in one's own thoughts the body and mind become healthy again.

Human lives evolve or reincarnate or propagate like flower seeds or bulbs. To perfect a perfect rose one has to replant year after year. Only after many years is a new flower recognized as perfect. So it is with you. Each time you are on this earth you are becoming more perfect. You are more loving, more understanding. Your highest attainment is to see love in everyone and everything, to give out only love, to become God-like in your way of living. If everyone sent out only love vibrations no one would ever be lonely, sad or sick.

You cannot live in a house and constantly think mean thoughts and expect other people to come in and not feel them. Sensitive people pick up these vibrations. They, in turn, react accordingly. Keep happy thoughts and you keep a happy, healthy family. Mothers can do much for their children just by thoughts they send out. Children are more sensitive than adults. Animals are very sensitive to human feelings. See a contended animal in a home and you will know those in the home are contended.

*October 5, 1963*

You have to be constantly aware of what your psychic senses are 'tuning' into. Many times when you feel you are turning into souls on the 'other side' you may actually be tuning into earth soul thoughts. This is called E.S.P. or extrasensory perception. You pick up thought vibrations of living people. This also can happen when you go into trance, which is a type of hypnosis. You may tap into your own soul mind and regress back to former lives and experiences, thinking it is the experience of some soul on the 'other side.'

Many groups are praying for these souls whom they feel are 'lost' over here, and they hope their prayers will help to show them the 'light' of God so they can go on from there. These prayers are not wasted because they do reach many earth souls who are in need of help. Everyone should be sending love vibrations out into the world today. They are so much needed.

You must re-evaluate the power and love of God for all His children before you belittle Him by thinking He would let souls returning to Him be left alone in a lost state of consciousness. Surely, if you believe you have Guides or Higher Teachers who watch over you and help you while you are on earth, surely you could not believe they would desert you when you returned to their side. Furthermore, most souls have returned to the 'other side' many times through reincarnation. Their soul mind remembers everything when they return.

These are some of the psychic experiences each one must thoroughly check before you conclude where these experiences are coming from. Remember you are constantly being

bombarded by various thought vibrations being sent out by earth souls. They are all in the air around you. You must learn to define where these states of consciousness are coming from.

## The Spirit World

The spirit world is all around  
Though very few can see it  
Its wondrous beauty  
And spiritual knowledge  
Lets us see all of life  
In a different perspective

No need to fret and worry  
The future's clear ahead  
The goals we seek are visible  
And our purpose all is known

No mortal man could fathom this  
No matter what he knew  
Not until he crosses over  
And sees life from this view

## *Jesus*

When I said, “*No man cometh unto the Father but by me.*” I meant LIKE me. I was on earth many times before I was Jesus the Christ. I had to perfect each stage of my perfection, the same as all of you are doing. My distinction was that I was the FIRST to reach the perfection of God. I had perfected the Christ or God in me.

Many have reached their perfection since that time, and they also are *one* with God and are capable of doing what I was able to do, even greater things than I did they are doing. These are all Master Teachers. They are helping other souls who are reaching their perfection of God. All are part of God. It is only when you reach perfection do you consciously recognize your oneness with God. I was but an example of the perfection each one of you will attain after your many incarnations. Knowing your ultimate goal is reaching this perfection is the secret to a happy life!

So, to come unto the Father you must perfect the Christ or Father in you. It is as simple as that.

Man-made laws, man-made names of calling people liars, thieves, murderers, only block the growth of the Christ in you. All men are good in God’s eyes. He knows why they react as they do. He does not turn them away from Him. All who call men names do not live the Christ life they talk about. If they did they would help those in their ‘learning stage’ to recognize their own Christ and feel the love of God within. God does not take away His love once He gives it. Only humans close this love off by letting society fool them with outward selfishness towards material gains only. Patient God knows this is only a stage of learning for each individual to build a lasting faith in unseen forces.

Too many people are searching for someone to care for them, to love them, because they feel alone, but as soon as they recognize the closeness to God they never feel alone or unloved. For as sure as you are reading this the God in you is reading this and loving you and helping you to feel this love within.

All of nature recognizes its oneness with God. There are no frustrations to block out growth. Each tiny seed has faith in God to grow. Farmers also have great faith in God to grow their crops. They know everything is a part of God and that part responds to their faith in it.

God knows this is only a stage of learning for each individual to build a lasting faith in unseen forces. Yet they are the only lasting forces in this whole Universe. Everything originally came from an unseen thought or force. Think about this!

One of the greatest forces is love and love cannot be seen. It can be felt or shown in some physical action but real love cannot be seen because it is of God. If you are one that feels unloved you have not recognized the God love in you. Go within, not without. The real lasting love is there already. God also knows you will become conscious of this love sooner or later.

Every breath you take you are taking in God love. Think about this and begin to realize all the love you already have—and a lasting love. You don’t need to gain material wealth or fame to gain this love. It is already yours. It will always be there, if you are rich or poor, black or white, a judge or janitor. Equal love is given you from God. God’s only desire is for you to outwardly express this love to others and be aware of it at all times.

Many pray to God to be loved. He already had answered your prayer with the greatest love possible but too many of you are blinded from it by the glitter of false man-made love. God’s love is everywhere, in everything, in every human being, in every animal, in

all of nature, and free for all to enjoy. Yet you seek a love that really never satisfies you. How long will man seek in far off places for that which he already has in his own soul!

*May 16, 1966 and  
September 2, 1972*

*William*

Remember, you do not know where the ‘breath of life,’ the ‘soul’ in your body came from. You can call it whatever name you wish. You can say you came from any place you wish, but remember it is from the same place that all souls came from, whether you were born in Europe or North or South America or any other place on your earth. All souls *came* from the *same place*! Furthermore, all souls will *return* to the *same place*.

Your growth will be known here and you will continue to return to earth for further learning. You will keep returning until you have reached perfection. Each and every soul will do exactly the same thing. Whether you are a Catholic, Protestant, Moslem or Jew on your earth—all return without religious ties.

This you all must know so that separation of nations and different schools of thought should start to unite as one, for you all are of the *same ONE* to begin with and you shall return to the *same One*! Re-read—think—feel! Knowing this to be the truth why should mankind continue to feel superior to one another? Why should mankind continue to war against one another? You are equal in God’s eyes!

Too many humans are blinded by what they see. Judging another by what the eyes see only you are only partly right. Closing your eyes and listening and feeling you come closer to being right in your so-called judging. With your eyes closed, when you feel a tiny baby, hear a tiny child’s cry you only have love for him as though he were your very own. Why must your feelings change when you open your eyes and see the child is of a different color or race than you are? An adult is still only that tiny baby with the body grown older. The same loving soul is in that body. This should make you realize you must continue loving these grown-up children for their souls are the same as when they were tiny babies.

*February 24, 1970*

The fiery tongue of criticism leaves a burning feeling in one’s heart. Cease these worldly actions and judging for you cannot see reality as reality. Humanity has camouflaged reality until no one really knows what is real and what is not real. Go back to nature and see God’s power and love at work without all this camouflaging and pretense. There is more beauty and love in the original plan of God than in all this false beauty you seek from mortal man.

When you say, “I’m not myself today,” it is a very true statement. You have let material things change you and only when the confusion becomes too great do you stop to take notice of what is happening to your real self. Your inner teachers keep trying to help with your spiritual growth, but when you are out of ‘tune’ with us you start floundering around and start feeling ‘lost’—or not yourself.

Again I say, it only takes a few seconds to bring yourself back into the ‘healing vibrations and teachings.’ The average person’s span of attention to this ‘inner teaching’ is very limited because of the attraction for material gains in life. How much of these material gains can you take with you if God called you home tomorrow? What have you

gained this lifetime that you can use in future lifetimes. Be honest and think a minute to get your correct answer. *Cease criticizing others who seem to lack motivation towards material gains.*

*August 12, 1970*

*Jesus*

This knowledge is for the purpose of equipping an individual with the Truth so he may become more God-like and loving towards his fellowmen. If an individual, after learning or having been exposed to this knowledge, uses it only to show superiority over others, he will lose the benefits from it and will not be given further knowledge until he is capable of handling it in the right way. This knowledge should make you understand *all* peoples throughout the world and make you more tolerant and loving towards them.

Many are not ready for this knowledge because they cannot lose their earthly ego. They feel they will have to ‘step down’ so to speak with others. In God’s eyes they are the ones who need to catch up to the others who are trying to make a better life for all. There is no stepping up or down in God’s eyes. You are only in different stages of awareness of your real purpose for being here. The closer you are to all of life the closer you are to perfection, which is the goal all are seeking.

Love comes wrapped in many coverings. But the real love found within a rough covering sometimes is the most genuine and lasting. So judge not by one’s outward appearance for within may be the greatest love of all. Earth souls miss so much by seeing only the shell of humanity. God sees the real you under all your outside coverings.

Reincarnation is a knowledge or awareness of great importance; but if one uses it as an alibi to excuse his actions in this lifetime he is mis-using and misinterpreting this knowledge. If you are aware of former lives you should realize you have an advantage by which you can understand and solve earthly problems more quickly.

You should know if you have unpleasant situations they are *only* for a learning—so tackle them and solve them as quickly as possible; but do not use excuses for not being able to solve them.

Procrastinating or to prolong doing your share in making this world a better place to live keeps you at a stand-still in your spiritual growth. No other human being can help you grow if you do not use your own initiative first. You only gain by what you put into life.

One can readily see why many are not capable of handling the knowledge of reincarnation. Many who held important positions in former lives would strut in this lifetime and expect others to look up to them. But one forgets all earthly titles vanish when you journey back to the ‘other side.’ Only, and I mean only, the love and understanding you gained in your earthly body remains with you. All are equal in God’s eyes. Only you judge someone as better than another. Judging shows lack of the real Truth all are seeking. Again, this shows your stage of learning. Strutting because of former lives is the same as strutting because you know someone in an enviable position in this lifetime. I say enviable because if you are strutting you still have false values of what success is or an ideal position to be in. *No* position or title makes one greater than another without title or position. These are not taken over on the ‘other side’ as you journey on to new schools of learning, any more than you can wear or use your baby clothes as you grow up.

These stages of learning are only steps to your perfection. If you stand still in this life you are retarding your soul's growth. If you withdraw from doing your share you are denying your soul the growth it came here to perfect.

Many do not want to become involved in unpleasant situations but this may be your greatest school of learning. Search for the learning from all experiences.

This is where wisdom is needed. All too quickly you refuse to face a little opposition. As long as everything runs smoothly you go along, but if you have to put a little extra effort into anything you quickly run from it. Nothing worthwhile is ever gained by this so-called easy way. The greatest lessons learned are learned by the most difficult experiences. But they will be the most beneficial to you in the years to come.

God gave each one a physical body to use. If He intended for you to just sit around and wait for everything to come to you He would not have given you legs and arms to use.

This stage of your growth is for you to use what you have already learned. Storing it up and thinking its value will increase is a false belief. You must use the knowledge gained in your daily life. Only through the use of it does wisdom come. What good would all this knowledge be if it were not used? It would be like a book on the shelf, if no one knew what was in it, it would be of no value. Only by reading and *using* the knowledge gained from the book would it be of any value.

You keep cramming your present brain with facts and fiction so that it becomes congested and you have a hard time sorting out the truth from the fantasy. Get your real growth from the Master Teachers on the 'other side.' Then you will know how to use the book knowledge that you have learned. Don't be impatient with this learning.

Remember time is eternal and you are in eternity already.

*April 28, 1968*

It must be remembered God gave these same teachings of *Truth* to many peoples since the beginning of time. Many had inspirations and visions long before the coming of Christ. Jesus' soul was on this earth many times before to reach the final perfection He was going through in His last lifetime. God was teaching Him as He went through his final test of perfection. He returned to show Himself to His disciples as the perfection of God! He was an *example of the perfection* we will *all attain* after our *many lifetimes of learning*. His teachings of God's Truth sounds so simple, but mankind has found them very difficult to follow.

Back through the ages great men with compassion for humanity have tried to live God's teachings but fell short of perfection. They were unable to sway nations away from wars and prejudice. Though these men were told the same Truths we are being told today, many who reported on these Truths misinterpreted them and as time went on many different groups formed their own way of interpreting these same Truths. Thus, the many different religions. God never intended His teachings to separate man from man by so-called religion. His was a "WAY OF LIFE" for all mankind.

Only until each soul has progressed far enough to remember what he has learned through his many reincarnations will he be able to follow God's Truth only.

Many who believe in the Karma theory believe that you come back many times to pay for the mistakes you have made in former lives. With God's teachings and Truth you come back for a *learning only*. *Never* a punishment.

Knowing we have *eight stages of perfection* to go through give us our real purpose for being here. What other purpose would God have for putting us on the earth in the first place. Surely not to see us suffer and struggle through this *one* lifetime. With the great

love He has for all of His children He must have greater things in store for you. *This He has promised!*

#### Old Ten Commandments

1. Thou shalt have no other gods before me.
2. Thou shalt not make unto thee any graven images.
3. Thou shalt not take the name of the Lord thy God in vain.
4. Remember the Sabbath day to keep it Holy.
5. Honor thy father and thy mother.
6. Thou shalt not kill.
7. Thou shalt not commit adultery.
8. Thou shalt not steal.
9. Thou shalt not bear false witness against thy neighbor.
10. Thou shalt not covet thy neighbor's house.

#### New Interpretation By Jesus Of Ten Commandments

- Thou shall have no other God except the one God; creator of all.  
Only make one image to God.
- Thou shall not speak to others in God's name except with reverence.  
Every day is God's day.
- Thy father and thy mother, treat with true respect.  
Thou shall not destroy anyone's enthusiasm, love, faith, trust, or physical body.
- Thou shall trust thy mate to be faithful.  
Thou shall not willfully take away that which belongs to another.
- Thou shall love thy neighbor as thyself can love thy neighbor, not as someone else loves thy neighbor.  
Thou shall not desire that which belongs to another.

## The Wonder Of God's Love

The beauties of this wondrous world  
Are not only for eyes to see  
But for souls to feel  
All other beauties diminish  
When this richness you fell within  
For God and His many beauties  
Are felt and not seen  
One may wonder at this wisdom  
Until this great love is felt  
Words and actions become stilled  
Through the ecstasy of joy within  
Diamonds furs and luxuries of all kinds  
Stay behind you when you return to the Father  
Only this great love remains with you  
So limited is our vision  
So muted are the words  
Until we feel the Touch of God within  
New horizons widen  
Warmth and love fill the air  
We then know  
We have only been looking on the outside  
When reviewing life with our eyes  
So great this power—so gently His touch  
So lasting His love  
All other emotions fade  
As does the setting sun

## Part - Two

*These additional messages were added to the fourth printing.*

Many of these additional teachings have been given to me since this book was first printed in 1971.

They have been given either inspirationally, or they are direct quotes from Jesus, and other master teachers from the “other-side.”

Many unanswered questions that people have been asking for years, are answered in this book.

I know they are the Truth of God, because Jesus, and the Higher Teachers, spell out every word.

Jesus also has been healing people who are here at the time, He is giving these messages.

We have received many messages, from relatives and friends, who have passed over on the other-side. Later it was verified by Jesus, or a Master Teacher.

Some of the information had been given to me from Jesus years before.

Again this verifies the messages.

I do want to say, I am not trying to convince anyone, of these Truths. I am only making you aware of them, and if you are ready for them, there will be no need to convince you.

You go back to the planet you were born under, when you leave here.

There you will learn if you have perfected your stage, or how much you still have to learn.

If you have not completed it, you will have free-choice to come back, under the same sign, any time you desire, to learn what you still need to know.

*September 4, 1974*

You may have to come back as many as a hundred times to perfect one stage.

Each time you choose your own parents, your location, and your nationality. You also set the length of time you wish to stay on earth, this time.

You choose your own time of death, *before* you return to earth. No one dies, unless it is the time he chose to leave.

No one can commit suicide, unless it is the time he chose. No death is accidental, it was the time you chose.

You have free-will to do most things, but you do not have free-will to choose your Master Teachers. They are appointed to each one.

Everyone has a Master Teacher who helps you all through your life, to perfect the stage of growth you are in, if you are aware of it, or not.

You also have many guides, some are relatives and friends, who have gone over, and want to help you fulfill some of your desires.

They are your guides, between their incarnations.

When you have perfected the stage you were learning, you return to your planet, and your Master Teacher will tell you your next stage.

Then you go to the planet under that stage. There you again have free-choice, to choose your parents, location, and your nationality. You also choose the time you wish to return to earth for this learning.

*September 4, 1974*

This information came through “automatic writing,” from my Master Teacher, and later was verified by Jesus.

*“Come where all is Amen—which means, the end of nearly everything life makes society do.”*

*“Over here we are spirit, and they sleep long enough to do 00000 (soul) change.”*

I asked what were all those 000?

*“Each circle (soul) connects you to another soul, and you go to connect with other 0000 (souls) to make round circles of ten souls.”*

*“Each round circle of ten souls connect with other round circles, of ten each, then they form a chain of ten large circles, to make a hundred souls.”*

I asked, where do you go?

*“To planet each is born under.”*

I said, you mean you link up with other souls, who are going to the same planet, you are going to? Do you go there only certain times of the day?

*“Yes, we let souls off at each planet, which takes only five minutes, your time, from earth.”*

Later my Master Teacher Zoro said, *“Many souls wish to stay on earth by their loved ones. This is their free-choice, they can stay as long as they desire.”*

Later he said, *“Venus is the planet where you will go, when you come over.”*

I was born under the sign of Venus, May twelfth.

Some of the writings I could not make out, because they used symbols. So I said, can’t you write so I can understand?

*“We said more than anyone else has said.”*

I said, you mean about the souls linking up?

*“Yes, 00 (two souls) meet connect and go on connecting, until there are enough to go on to the planets.”*

I asked, how long do you wait here on earth before you go?

*“Just long enough to connect, which is only minutes.”*

I said, can you come back to see the loved ones you left behind?

*“We see them all the time we are going to the planet.”*

What about after you get to the planet? Are your Master Teachers right there, or have they been with you, when you first crossed over?

*“Two large circles are made up guides and Master Teachers, who help you over.”*

*“After you get to the planet, you change to a Christ child, and see what you still have to learn.”*

I asked, who tells you?

*“Christ.”*

I said, you mean Jesus Christ?

*“Christ in each.”*

What about your Master Teachers, I thought they told us?

*“Your Master Teachers do help you, and you are where you review all of your life. All have to see where they made wrong acts in life.”*

Does your Master Teacher point the wrong actions out to you?

*"No, you see your own mistakes, and want to come back, to do them right."*

I asked, how soon do you come back?

*"Soon as you want."*

I said, don't they usually wait until their immediate family comes over, before they return to earth in a different life time?

*"To answer is complicated, all are related to each other. Only on earth do you think you are of different families."*

*September 15, 1974*

What a tremendous lesson! Later I verified this message with Jesus, and He said, *"Yes, this is the Truth. All Master Teachers teach the same Truth of God that I do."*

*September 16, 1974*

This is interesting how each soul links up with other souls, to form larger circles.

I asked Jesus, how large is one soul?

He said, *"Eight feet."*

How much we still have to learn. Reread this last lesson, and think, if we are all related, how are we treating our relatives?

Besides, just think how large our soul is. No wonder Jesus answered one of my questions this way. I asked Him where your soul-mind is. He said *"outside your body."*

I asked Him to stop me, as I reached from the tip of my toes, up to the top of my head, where the soul was. He stopped as I was between the center of my forehead, and where the soft spot is on a baby's head. It's eight feet tall—thirty-eight inches wide, and sixteen inches thick. It is attached by soft spot, and has one hundred foot cord, two inches thick.

After you have reached your final perfection of all the eight stages, you then become a Master Teacher, and you will be capable of helping other earth souls, to reach their perfection.

Your soul mind has all this knowledge, already, altho you did not have to show it in your last lifetime. It is not necessary. You did show you had perfected the stage you were in, at this time.

I asked Jesus what He meant when He said, *"In My Father's house are many mansions."*

He said, *"Each man builds his own mansion."*

Later I learned, only after you have reached your perfection of God, can you build, or manifest your own mansion.

My Master Teacher said, *"You spiritually manifest your own mansion."*

He also said, *"Many who feel they are possessed by other entities, when they are not acting like they normally would, in this life time, are only going back in time, or regressing themselves, to other life time actions. Even those who say there are many entities possessing them. It is only other life time entities, but it is the same soul."*

All must remember we have been on earth hundreds of times!

I told Jesus, the people on earth now, feel there is going to be an over population, and there won't be enough food, and space, for all of them, so they are having abortions, and taking pills, so they don't have any more children.

I asked Him if there are new souls coming to earth at this time?

He said, *“There are no new souls. All the souls that were—is—is to be, have all been on earth before. They were all made at the same time, since the beginning. Many are on other planets, waiting for the conditions of the earth to be such, that they could learn from it.”*

*“The conditions of the earth now, makes many souls want to come back for their learning. There are no new souls, just that they are returning for further learning.”*

I asked Jesus if He was of Jewish descent. He said, *“No. I descended from God the same as all of you have.”*

I said, what about your nationality?

He said, *“Nationalities are for earth identification only.”*

This is a great lesson to remember!

*August 4, 1974*

All of the poems in this book, have been given to me inspirationally. I wrote them just as they were given.

I feel very blessed having the “Spirit Forces” using me to bring forth such beautiful thoughts!

## Communion With God

Wise men seek communion  
With those who really know  
God's secrets they reveal to you  
To help your awareness grow

Your desire to be perfect like God  
Opens wide the channel door  
And Master Teachers rush right in  
And Teach you things you not known before

So great this knowledge so great the desire  
Time flies by—but one must not tire  
God made you a perfect channel of love  
So you may give love—like His from above

*May 28, 1972*

## **Till The End Of Time**

Sometimes in life, we often wonder  
Why the hard roads—we have to climb  
Some days it seems  
We just can't go on  
With the burdens and heartaches  
We have at the time  
But somehow somewhere  
New strength is found  
Given by these kindly souls  
Who have wandered far and near  
In search of true love  
That they could share  
All their joys and sorrows with  
Till the end of time

*May 12, 1933*

Many have asked what happens to those who do not believe in God, or reincarnation.

Jesus said *“Man only thinks this way in his brain, because of earth training. Each soul-mind has been over here many many times, and knows all about God, and all of life’s purpose.”*

I asked Jesus if God could show Himself to us, how large would He be?

He said, *“God is spirit.”*

I said yes, I know, but how big would He be?

Jesus said, *“As wide as you can zero into, and as high as infinity.”*

Isn’t this a beautiful answer?

One day when I was praying to Jesus, and asking Him to help heal some friends, He said, *“When you pray to me, I hear your prayers, when others pray to Gandhi, or the Buddha, they too have their prayers answered, because they are ONE with the Father, and capable of doing what I can do.”* This really unites all religions. Jesus is letting us know, many religious leaders have reached their perfection, and capable of doing what He can do.

## Jesus Is Here

Jesus is as real today  
As real as you and I  
He comes to help us through  
Each day that passes by

He always surrounds us  
With His wondrous love  
That God gives to all  
From His heaven above

Forget all the sorrows  
They are all in the past  
Just think of all the joys  
They are the ones that last

*September 19, 1972*

## Where Does It Hide

Love-love-love  
That elusive spirit of God  
That priceless gift—He gives to all  
To give—to use—to feel—to hold  
Tell me—where does it hide

*March 16, 1972*

When Jesus was giving me the stages of perfection, He said *“I was the first to reach the perfection of God, which many have, since my time, and all souls will reach, after their many incarnations.”*

I said name some who have reached their perfection. He said, *“Gandhi, Yogananda, and Confucious.”*

Again, He is uniting all religions, under ONE God. *“Each only worship Him with different names,”* He said.

*June 6, 1970*

I asked Jesus if He wrote anything in the Bible. He said, *“No, all was given through inspiration of God, to man, and man could only interpret it, with the knowledge he had at the time.”*

This we must always remember. It is *man’s* interpretation of God’s Truth, when there is a variation of God’s Truth.

Jesus said, *“Each one is right in his interpretation of God’s Truth, at his time. This is the stage of growth he is in. All will know the real Truth of God, by the time he reaches perfection.”* Never belittle another’s belief, all are of God.

## God's Love

Could I but give the love God gives  
For all the world to share  
It would be so wonderful  
To spread this God love everywhere

It multiplies as each one gives  
The warmth would be so great  
That everyone would feel its joy  
So give love today before it's too late.

Give a little to those around you  
Give a smile tho you feel pain  
Give a blessing to those in need  
And see how much you really gain

## Riches

The treasurers I've gathered—along life's way  
Were neither silver or gold  
I could not place a price on them  
They are too precious—to be sold

It was that smile—and little sigh  
The handshakes—that were given  
Gave me more than money could buy  
And they made my life worth living.

So when one counts his treasures  
I'm richer from the start  
Because I have these precious gifts  
Stored deep within my heart.

*March 4, 1948*

These are direct quotes Jesus spelled out to me. They were given to me over many years.

Each one is a tremendous lesson, and must be re-read many times, to get the full meaning of His words!

1. *“To truly love a person—you must accept him as he is right now.”*  
*February 1, 1972*
2. *“Does man seek knowledge just to criticize—or does man seek to learn, and give love.”*

Many people have their favorite disciples, or prophets, and they dislike others.

Jesus said, *“Remember my disciples have grown, since the Biblical times.”*  
November 9, 1973

He was showing us, that even the disciples had to return to earth for further learning, the same as all of us have to, to reach our perfection.

He did say some of His disciples still haven't reached their perfection.

If the disciples were still trying to reach their perfection, all of the people in the Bible have grown, and are reaching their perfection.

This must be what Jesus meant when He said, *“Man's knowledge of God's Truth must grow, with man's stages of perfection.”*

If you understand reincarnation, all of us may have been taking part in the events in the Bible, and surely we all have grown in knowledge, and would not act like people were acting at that time.

Even with the present day problems, of not segregating people, man has grown to know we cannot make slaves of other people.

One must be ever aware of the laws we are making, in regards to color or race, because in our next lifetime we may be of the color we are restricting now. The black man of centuries ago, may be the white man now. The next life time he may be yellow in color. Until all men are equal, each one must go through what the other is going through.

A convict up in San Quentin, who had read this book in their library, wrote me, and asked if I would ask Jesus if Judas had to betray Him.

I asked Jesus and He said, *“Yes, this was all part of my final test, to prove I could still love and forgive, even those that spat on me—those that turned me away—those that betrayed me—and those that crucified me.”*

Again He said, *“No man will have to go through anything more severe than I did, because I was the first to reach the perfection of God.”*

He also said, *“Judas was one of the first of my disciples to reach his perfection.”*

A little twelve year old girl asked me, if God made all of us, who made God? I asked Jesus and He spelled out this name “ZWREM.”

I said, I'm not going to ask you who that is, because I just want to learn about this world now.

He said *“There are worlds beyond worlds—beyond worlds—beyond worlds—man cannot comprehend the extent of all existence.”*

April 3, 1973

Some of his answers are so profound!

My teacher Zoro came in one evening and said, *“Ego is destroying man. Ego causes jealousy, hatred, and greed. Ego is killing cells in man's body that would normally keep him well.”*

March 31, 1973

Then Jesus said, *“The way man is acting towards each other—is the way man’s cells are acting in his own physical body.”*  
*April 3, 1973*

Could this be the cause of many of our illnesses?

## Seekers Of The New Teaching

You must know that this teaching  
Will reach far and near  
To erase all this hatred  
That causes all fear  
This new awareness  
Of God's wondrous love  
Raises one's consciousness  
With those up above  
Idols will crumble  
And theories will fall  
When these new teachings  
Reach one and all  
When each one is aware  
His thoughts are all known  
And never for a moment  
Is he ever alone  
He will walk knowing teachers  
Are there by his side  
He will be free of worry  
Because there is nothing to hide  
True meaning of friendships  
That are deep and sincere  
Makes everyone conscious  
That Heaven is near  
All fears of the future  
Will vanish from all  
When we know God hears us  
As soon as we call  
Teachers will talk about sickness  
That is not meant to be  
In this way God's children  
Will really be free

## Silent Mysteries

Silent mysteries how powerful you are  
You penetrate—and then release  
Emotions that I never felt before  
Which overwhelms my very soul

I hear the angels singing there  
All of their heavenly songs divine  
And God with His gentle touch  
Is felt with love that's mine

## How Rich Am I

How rich am I—I cannot say  
I am more than a millionaire  
The priceless Jewels—that I call friends  
Are the kind—that are so rare

The morning sun and the stars at night  
The flowers that bloom—with colors so bright  
What price could I put—on such precious things  
That God with His love—gave His Angels to bring

*February 26, 1966*

One Sunday afternoon, a lady phoned and asked me if I would ask Jesus if He took the entities out of the man and put them in the swine, and they ran down to the lake and choked.

She said the Minister was talking about this in his sermon this morning.

I asked her if she knew where the quote was in the Bible, because I did not recall, altho I had heard it before. She said she didn't remember either.

So I sat down to the table, with the Bible beside me, and asked Jesus to come into the table.

As soon as He came in the table He began to spell out "*LUKE.*"

He often tells me to look in the Bible, and He tells me exactly where it is, then He interprets it. He would give me the Book, chapter and verse. So I wasn't surprised when He started to spell out Luke. I asked what chapter, and He said, "*Eight.*" I said what verse, and He gave, "*Thirty-three.*"

I looked in the Bible, and it was the exact verse, which read, "*Then went the devils out of the man, and entered into the swine, and the herd ran violently down a steep place into the lake and were choked.*"

Here He was answering the question I was going to ask Him, before I even had a chance to ask Him. How did you know I was going to ask you about this, I said to Him. But he wouldn't answer. I then said, is this true?

He said "*Do you believe it?*"

I said, you know I don't believe there is such an entity as a devil, so the man could not have been possessed by the devil.

He said, "*Did I take the infirmities out of one—and put them in another?*"

Then He left. In other words why would He take the entities out of this man, and put them in the swine.

He didn't take the blindness or the lameness, or the sickness, out of one person, and put them in another.

He usually comes back with a question, so we can think, and reason the Truth out, for ourselves.

Many have asked, how are you sure it is Jesus giving you these answers. I believe the answer itself proves it is Jesus. Who would think of such an answer?

Besides, I have felt His presence over sixty years. Never in all the messages has He varied in God's Truth. He may repeat the same lesson years later, and then add to the lesson, but it never varies from the original Truth.

Jesus said, "*Why does man feel that only during the Biblical times, there were great men of prophecy, and healing and vision. Long before I was Jesus the Christ, there were great men of vision prophecy and healing, and in this present day, there are men capable of vision, prophecy and healing.*"

## God's Healing Power

The quietude of meditating  
Enriches each one's soul  
You touch the mystery  
Of God's nearness  
And gain much knowledge—yet untold  
One listens to this wee small voice  
That beckons to your call  
That makes you feel your oneness  
With the "Greatest Healer" of all  
You feel His power  
Flowing through you  
To the very depth of your soul  
It awakens new faith within  
and new strength is given—I am told  
So listen to Him when He is near  
And feel the love He gives  
For you are one of His dear Children  
And perfect health to you He gives

*October 23, 1971*

## Changing Seasons

As autumn leaves—begin to fall  
And the air is tinged—with frost and snow  
We sense the coming of the winter season  
Just like life—the future we do not know

But we can be assured—that God has a plan  
That He is willing to share—with every man  
We never have to worry—what nature will bring  
Because God takes care—of every thing

*October 5, 1974*

I told Jesus I didn't like to call Him in on Sundays, because so many churches are having services, and so many people were praying to him at this time.

He said, *"If millions see man at same time, on man-made machine, how much greater is God."*

He evidently was referring to television.

Some religions believe Jesus is God, so I asked Him if He was God.

He spelled out, *"No."* on the table, then indicated there was more to be said. I said, if you are not God prove it.

He said, *"Who did I pray to in Gethsemane—who did I pray to on the mount—who did I pray to on Calvary?"*

Then He said, *"I am not God, but I am ONE with the Father, and capable of doing what God can do."*

Many may wonder how I receive these messages. All these direct quotes are spelled out word for word, by the tipping of the table. Each tip is a letter.

It takes hours just to have one quote spelled out, but it is important to get the exact wording from Jesus, and the Master Teachers.

Another reason I know I am talking to Jesus, by the "miraculous healings" He has been giving people, who come here to my home.

At first, I didn't even know He was healing. He would come into the table and stay there, without spelling anything out. I would tell the people, I guess He just wants us to feel Him.

Next few days, people would call, or write to me, saying, ever since I was to your home, I haven't had the pains in my back, or my blood pressure has gone down, my arm doesn't ache anymore, or the pain in my chest is gone. I would say, "Keep thinking good, and thank the dear Lord, because I didn't even know anything was wrong with you."

One day I saw physical proof that Jesus was healing.

A young man sitting at the table with six others from the University, had the table tip over into his lap, when Jesus came in. Within minutes Jesus had restored his sense of smell, and taste, that he had lost ever since an accident, two year prior.

I had just met the man, and did not know anything about him.

The wonderful part is, that Jesus knew what was wrong, and healed him, without anyone asking Him to heal.

This proves that Jesus knows our illnesses, before we even pray to Him.

He has continued to heal many many more, since that time, right here in my home.

I have over a hundred people here every month. I do not charge for any of the visits.

I have had Priests, Ministers, doctors, teachers, engineers, attorneys, and from all walks in life. All are seeking further psychic knowledge.

After several had been healed one evening, and everyone had left, I went to my room alone, and asked Jesus if He could heal the arthritis in my hands.

He said, *"Yes."*

I said right now?

He said, *"No."*

I said, you mean there is a time to heal?

He said, *"Yes."*

This is interesting, because there must be a reason, or a learning, we must get from this experience, before we can be healed.

We must look for the learning from every situation, or experience we are going through, before it can change, or heal.

## Listen Deep Within

I realize these teachings that High Teachers give  
May be hard to accept at the moment  
But once you realize this Truth of God  
You will know exactly what Jesus meant

He tells you that God is a loving God  
Who holds no ill towards any man  
He tells us that we are all His Children  
And He gives to all—as much as He can

We must know that God made everything  
The mountains, lakes, and ocean breeze  
The beautiful flowers—and all of the birds  
Every animal and insect—and all of the trees

Now surely you could understand  
The loving thoughts He has for man  
He never intended for you to be ill  
For He has every cure—in the palm of His hand

There may be a reason to slow you down  
Sometimes to change the way you are living  
You may be taking too much from others  
He is showing it is time—for you to be giving

This strength of God—is all around you  
It heals—it cures—it blesses all  
When once you feel—this loving force  
You know He will help you—in case that you fall

Great strength of God—lies just beyond you  
Just waiting for you—to stop and tune in  
No need to have pain—and long suffering  
All you have to do—is listen deep within

## **What I Would Like My Son To Know**

1. A deep understanding of himself.
2. Knowing his real purpose for being on this earth.
3. Knowing his full potentials.
4. Knowing that each individual has the same potentials that he has.
5. Knowing love is the greatest qualification he could have.
6. Knowing God loves each one equally.
7. Knowing that being a genius is how much you give to humanity and not how much you take from it.
8. Knowing a high standard of moral ethics is essential.
9. Knowing that each man, regardless of color or creed, has god given rights to live with dignity and respect doing whatever type of work he is capable of doing.
10. Knowing there is only one God, who loves each one equally.

## The Wonder Of God's Love

The beauties of this wondrous world  
Are not only for eyes to see  
But for souls to feel  
All other beauties diminish  
When this richness you feel within  
For God and His many beauties  
Are felt and not seen  
One may wonder at this wisdom  
Until the great love is felt  
Words and actions become stilled  
Through the ecstasy of joy within  
Diamonds furs and luxuries of all kinds  
Stay behind when you return to the Father  
Only this great love remains with you  
So limited is our vision  
So muted are the words  
Until we feel the Touch of God within  
New horizons widen  
Warmth and love fill the air  
We then know  
We have only been looking on the outside  
When reviewing life with our eyes  
So great the power—so gentle His touch  
So lasting His love  
All other emotions fade  
As does the setting sun

*February 22, 1970*

I have many Jewish friends who have said, they still believe their Messiah is still coming?

I asked Jesus if this was true.

He said "Yes."

I said, do you know who it would be?

He said, "Yes—I."

I said, you mean you will walk the earth like you did as Jesus?

He said "No—*visible spirit, all will see me.*"

He said "*On World Television, December Twenty-five, Two Thousand A.D. at 4 p.m. Jerusalem time.*"

I asked where He would be in Jerusalem.

He said, "*Over the Sea of Galilee.*"

I said, for how long?

He said, "*Eight minutes.*"

I asked Him what He would be wearing?

He said, White robe, bare feet, and would be six foot four inches tall. He said His hair would be reddish brown, and would have *purple* eyes.

I asked Him why purple eyes?

He said, "*All visible spirits of Masters have purple eyes, which means spiritual.*"

He said His eyes were brown when He walked the earth as Jesus the Christ.

I also asked Him how high above the Sea of Galilee He would be?

He said, "*five feet above water.*"

This was the first time He gave exact date, time, and place.

He spelled every word out on the table!

Jesus also said, "One arm will be out straight in the air—other arm with TORAH."

He said He would be facing EAST.

*April 26, 1973*

I asked Jesus if He could stop wars.

He said, *"Can you stop boys from fighting."*

I asked if it was necessary to have wars.

He said, *"No—Man wants to prove how powerful he is. Man, not Nations."*

I also asked Jesus when He was on the mountain for forty days and nights, was He tempted by the devil, as the Bible says He was?

He said, *"No—you would call it, earth-ego."*

*April 8, 1973*

Again, the Bible used the name devil or satan, that was supposed to be tempting Him.

Jesus said, He was struggling with His own ego!

He was right when He said, *"Man could only interpret the teachings of God, with the knowledge he had at the time."*

There has been so much talk about evil spirits possessing people and harming them. I asked Jesus if spirits do possess people on earth.

He said, *"Spirit only comes to earth to teach when man does not learn from earth experiences."*

*June 23, 1974*

A few months before He said, *"Spirit chose to teach world, what violence can do to man's senses."*

I said, what about the victims?

He said, *"They chose to teach, before coming back to earth."*

I asked if there were any evil spirits?

He said, *"No—spirits who teach are highly evolved."*

Another time He said, *"Remember there are spirits who teach world what violence will do to you—with eerie throughout your body."*

Each one experiencing contacts with spirits, should look for the learning, they are teaching you.

Everyone's house is haunted. Spirits are everywhere, but they do not try to make their presence known. You are never alone. Always there are guardian angels ready to help you.

Spirits see what you are doing at all times. They even know your every thought.

*Never* are any of your thoughts, or actions held against you. Only you, and those around you, in the physical world, feel the results from your actions, then they react to them.

All spirits know you are here for a learning, and a learning *only*.

*March 31, 1974*

Jesus said, *"God never punishes. Man punishes man, but never God."*

He said, *"God only sees you as perfect. He knows He put the seed of perfection in each one's soul, and each one will reach this perfection, after your many incarnations."*

He said, *"God made man to be able to love, and learn in this world."*

*April 3, 1973*

Jesus said, the reason I am able to talk to Him is, because I am constantly searching for God's Truth. He said, I should tell everyone I do not seek favors for myself, just the real Truth of God.

Ever since I can remember, I really wanted to know if God was really like the ministers said He was.

Sometimes they would say, He is a loving God. Then they would say He is a punishing God, and He made hell, for those who did not believe in Jesus Christ, and they would go to hell.

I could never understand if Jesus was His only son, why He had Him go through so much suffering.

One day Jesus said, *"If man says I died for his sins, why doe he call himself sinner?"*

We better think about this!

Remember each one has free-will of thought, to build his own little world around himself. If he so wishes to make it a world of disease, famine and horror, he has the right to do so, because what he thinks, he draws to himself.

Man has done this since the beginning of time.

Everything you read is only man's interpretation of what he feels is taking place. It may not be the actual fact, so it is up to you to believe it or not.

Man is only a child, sometimes building horror castles, and sometimes building beautiful happy castles, in his sand of life.

God sees only the beauty of each creation. He knows His children will grow in spiritual knowledge, where they too, will only see the beauty in everyone and everything. His patience and love is limitless. Our patience is very limited, and even our love is withheld.

He sees you perfect, only man sees the imperfections of others.

Man takes on burdens that never even exist. He is weighted down with suspicions, fears, jealousy, envy, and resentment.

All of these are man made, not God made.

When you cross over to the other side you drop all these earth emotions, and imaginations, and you literally fly without these weights.

*October 3, 1972*

The sooner man starts giving out love, instead of all these other emotions, the happier and healthier he will be.

Remember when you were just a little child, in earth age, your little imagination could picture all sorts of things. Most of the times they were happy things, but when man started to put fear into the child, he began to be afraid of the dark, and shadows gave you scary feelings. You imagined giant beings ready to grab you, in any darkness.

As you grew up, you knew there were not any boogy men, scaring you. It was just someone's imagination.

Then you began to be suspicious of everyone who passed you on the street, especially after dark.

If you sent love out ahead of you, only love would come back. Think about this!

*October 3, 1972*

When Jesus said I should add all of these extra teachings to the book, I said, how do I know I am not teaching anything wrong?

He said, *"How wrong can you be, when I spell everything out."*

This reassured me, that I was only receiving the real Truth of God. I feel all who can reach Him, will receive the same Truth.

## See God's Beauties

See the beauty in each day  
See the love in each one's heart  
See the joys the children see  
For God was there right from the start

Feel the sorrow when one is lost  
Feel the sorrow of a broken home  
Feel the sorrow of nations bombed  
Feel the sorrow when one is alone

Listen to the birds that sing  
Listen to the raindrops fall  
Listen to the beat of your heart  
Listen to God in the trees so tall

*June 28, 1974*

## The Future

Through misty eyes—I see the future  
Unfolding like a dream  
The air is filled with loving spirits  
Darting here and there  
They come in answer—to our earthly desires  
They strive to help each one  
If we only knew—what the future holds  
We'd be spreading happiness everywhere

*July 31, 1973*

The soul searches constantly for knowledge, wisdom, and love.  
So deep this yearning, yet so hard to learn.

This hunger must be fed by loving hands, and tender devotion.

Frightening fears unleash other deep emotions, and closes off the love emotions.

A beautiful soul must express for all to hear.

The deep emotions stirring within, must be released with restraint, lest the force overshadow the beauty and love it longs to give.

You need never to exert pressure, when trying to learn psychic knowledge. It should come naturally.

Everyone is psychic, only each is in a different stage of growth.

Each Master Teacher only gives you what you are capable of learning.

Jesus said to me, many many years ago, "*Learn it—live it—then give it.*"

This I have tried to follow for the past fifty or more years. I learned when I was in my teens, I could not be as psychic as my mother was at that time. It would take many lifetimes to reach her stage.

## Reaching God

Ah—this moment of quietude  
How priceless you are to me  
I need you so I can reach out  
To God in perfect harmony

Blessed moments like this  
Bring me in tune—with the infinite  
And I'm filled with His glorious love  
That He showers on all from heaven above

*April 21, 1971*

## God's Gifts

The gifts God gives to us  
Should not be lightly taken  
Their worth in life increases  
As new love is awakened

The mighty power of God  
Surges through me constantly  
Making me aware of His presence  
And all the love He gives to me

*April 21, 1971*

This is the hour that I like best—yes, this is the time of God's day—that brings me closer to Him.

It is after midnight—and others in the house, are fast asleep—But I—why I am so very wide awake with expectancy! I know I will have someone close to me—who can only reach me after everyone has left, and gone to sleep.

Everything seems so peaceful, the stillness of the night, intensifies the beauty of my surroundings! My thoughts rise to higher planes—the beauty and reverence which is only known by the few who seek such communion with God!

He renews my strength—my hopes and dreams! I can face the future with assurance, for I know I have shared my deep inner feelings, with the greatest power there is!

He is every ready to hear my call—to hear your call too, if you so desire to reach Him! Never be afraid to call Him. He wants to come to you—but you must want Him to come in, before He can help you.

Oh, dear friends, if I could only describe the joy and contentment, which comes to me after I have shared these precious moments with Him!

## Quotes From Jesus

*“Men will teach Truth to world just as it is written in this book.”*

*October 1, 1972*

*“You and yours zero into the youths with God’s Truth.”*

*October 1, 1972*

*“Soon you will have Will Communion.”*

*“One must thirst for spiritual Knowledge.”*

*“Worry not what to say, it comes naturally.”*

*“You should just tell—teaching is trust-worthy.”*

*September 1, 1971*

*“You will want to be willing to take God’s Teaching to world”*

*“We make the world lessons through people’s channels.”*

One message came through from Moses.

He said *“I am Moses—you tell people you are my live communicator.”*

Many of these quotes Jesus gave may have been for my husband and I for our teaching. They could apply to all peoples of the earth, because *all* are disciples of God. All of us should spread God’s Truth!

One evening while I was watching a television show, telling about the life of Christ, I asked Jesus this question.

I asked Him what were His last words on the cross.

He said, *“Tomorrow I will be with thee, Father.”*

He said, *“I learned my joy in the first lesson. Truth erases all fears.”*

*January 31, 1973*

I asked Him what countries were the most religious.

He said, *“Not religious—but spiritual.”*

He named them in this order. *“India, Russia, Yugoslavia, Turkey.”*

*October 18, 1971*

This was interesting, because he stressed spiritual, not religious. There are many religious people, but not all are spiritual. England and United States, with all their churches, He didn’t mention.

He said, *“Much praying under stress is unnecessary. Love needed.”*

*January 31, 1971*

He said, *“Worry not what some people may say—God’s Truth is right.”*  
He said, *“Wrong Truth world teaches. My truth will world people never learn?”*  
January 26, 1974

He said, *“Your Zoro will two times tell world God’s Truth.”*

A heavenly host of Angels surround my every task, making my burdens light, and my work easy. I am ever aware of the help they give me. There is beauty in all that I do. My faith is renewed each time I feel their presence.

God is everywhere, and in everything. This I know to be true. All things work in perfect harmony, in His world of perfection. Only we see the imperfections, because we see only the shell of things. Only God sees the perfection in all things, and all people. Let us be ever aware of the God in us. Giving love to all, and expressing this God-love, that is within all of us.

June 6, 1965

The Virgin Mary came in one evening and said, *“People read spiritual books; but take names, and put wrong meaning to them.”*

I asked her, if Jesus was of virgin birth.

She said, *“Nothing is impossible with God.”*

She also said, *“There has been many virgin births.”*

I asked her, why Jesus was born?

She said, *“God wanted you to see man, at the peak of his perfection.”*

These are messages you should read with deep understanding, and deep thought. The wisdom far surpasses man’s thoughts.

March 10, 1970

These also are special quotes from Jesus.

*“I will tell you, special way to tell your good spirit contact.”*

*“You gave world God’s Way of Life, so many could understand Truth to live by.”*

Jesus said, *“I redeemed man from wrong ideas in life, should he want to nurture the idea of a punishing God.”*

*“Many will want you to prove I said these things to you. Tell them, I will talk to them, if they try to walk in spiritual way.”*

He said, *“You won’t have to give advice—just give God’s Truth.”*  
October 26, 1973

*“Soon all will unite under ONE God.”*

As Jesus has said before, *“All religions really believe in the same God, only they use different names.”*

**Dreams Come True**

No distance too great  
That our souls can't span  
And commune in perfect harmony  
The joy and love we wish to share  
Is fulfilled through God's love  
That He gives everywhere  
Let go this love—that deep you feel  
Direct it on its way  
For angels guard it on its flight  
And repeats to those—what you wish to say  
If all could try releasing  
The love we fear to lose  
It would return in such abundance  
Too much for one to use  
Fear of losing—what you should give  
Only retards the life that we live  
God gives so generously of His love  
To each and every soul  
So you in turn could share this love  
This was to be life's goal  
You are failing Him—if you try to hide  
This love He gives to you  
Try using it in your daily lives  
And you will see your dreams come true

*October 30, 1965*

Do not try to play God. You are already part of God, and a Divine part, but you must remember everyone is this Divine part of God!

You must look at your fellow-men as all part of the Divine God!

Everyone tries to seek recognition, if they have to use positive, or negative action, to get this attention, they will use either one.

When each person knows God's purpose for all of us, he will not need to seek recognition, for he will know all will reach the perfection of God sooner or later.

Man is letting his physical body rule his spiritual body, instead of the spiritual soul directing his physical body, which is the way God intended man to act.

Remember, God wants you to have money, and material things, if you use them in the right way.

When you truly love God, you automatically want to serve and love every individual, you come in contact with!

You know they are all a Divine part of God, the same as you are.

How the High Teachers on the other side, are trying to bring man back to his physical, and spiritual self!

*December 9, 1971*

Soul development is the main growth, God is concerned about.

You take on many physical bodies, but you only have *one* soul!

Psychic knowledge, or spiritual growth stays with the soul forever.

Remember your spiritual growth can only take place, if you have love of God for your fellow man.

If you are seeking psychic knowledge, just to build your ego, or to make you feel more important, with your friends, you will never gain true psychic awareness, because you are leaving out the main "Life force" of this knowledge, and that is having love for one another. Self love, closes off this learning.

Spiritual growth, is soul growth, and the only way the soul can grow is by giving *out* love.

You must sincerely love everyone, and you must show this love.

There are many ways of showing love to another, just a smile, a handshake, a cheery word, are just a few of the ways you can show love.

The downfall of any business, church, or marriage, is *not* money but lack of *love*!

The churches will have to stop preaching guilt, and sin, and preach the love of God, not the fear of God.

With this change, the churches would overflow!

Everyone is wondering what God looks like. You have been looking at God everyday. Every person you meet is God walking among you.

He sees your lack of love for Him, in the way you pass people on the street.

Jesus has shown the way to perfect the God in you. He taught you how to treat all peoples of the world.

You are closer to God than you know. How much do you love Him?

Remember the secret to finding God, is to find the love in each one you meet.

The secret for psychic growth is the intensity with which you love!

*December 9, 1971*

Don't wait for someone else to see the love in you, before you start seeing the love in others.

Everyone must start right now, not tomorrow, but today!

You do not need more wars, or more schools, or more churches, you need *more love* in your homes and in your hearts.

Then when you go out in business, you will be successful, because you are starting out with a solid foundation to build on.

Love of your fellow men is the first qualification for any job.

The mechanics of the job will come easy, when you are in tune with man and God!

## Patient God

How very patient you must be  
To love us even tho we fail  
To benefit from all you give  
Along life's wondrous trail

How hasty are our words and actions  
Tho many we would like to recall  
For tho we have hurt our dearest friend  
We have hurt you dear God most of all

*April 10, 1963*

## How Blessed Am I

If I could only hold forever  
A smile—a look—a touch  
That raises my emotions  
To the highest realms of heaven  
To be recaptured  
Time and time again  
How happy I would be  
Like the love I had in childhood  
And the love from my school chums  
The love from my first date  
And the love from my life's mate  
I'd like to recapture  
Each of these moments  
And live them over and over again  
For this is when I feel the nearness  
Of God with His great love

*October 28, 1969*

All must stop trying to change situations, because they look negative to you.

You can only change people's attitudes towards their situation, they are in. They must take the learning from this experience that they are going through.

Each one must work and help in such a way so as not to let other people depend on you too much. It may flatter your ego, but you may be weakening the other person.

Your one goal must be to change an unhappy person's attitudes toward his learning, to a happy feeling of progress, through this learning he is going through.

Only God can help each person directly, but the individual himself must contact God directly through his inner awareness. He must get in touch with his "Home Base" so to speak, or the "Main Power Plant." Then he can start branching out from there.

Always remember, *all* your power comes from the main source, which is *God!*

It is only when you close off this connection, do you falter along life's Way.

Too often you substitute other human beings, to get your strength from, but these are only false strengths, because they too will fall, if they close off their power from God.

As Jesus said many times, *"I alone can do nothing—only with God's help, can I help another."*

*August 18, 1971*

One Saturday night, Jesus said, *"Tomorrow listen on man-made machine."*

I said, what time, and station?

He said the channel, and time. I said, you will have to awaken me.

The next morning I was awakened at the exact time He said. I turned on the program, and the Minister said, the sermon would be about "Judgment Day."

I hurried to get my little table, and brought it in the living room. As soon as I sat down, Jesus came in the table.

I said, now tell me what you want me to learn.

When the Minister said, *"And on Judgment Day, they all will be called up, and those who believe in Jesus Christ, will be saved,"* and Jesus said, *"No!"*

The Minister continued, *"and all those that do not believe, will be thrown into everlasting fire."*

Again Jesus said, *"No."* Then He started to spell this out.

*"Each time you come over, you know what you still have to learn."*

Then He left, He didn't even give me a chance to ask Him any questions.

How simple, and beautiful He explains His many teachings, that have been misinterpreted!

Again He proves God is a loving God, not a punishing God.

One day a friend said, she had just joined a church, and she wondered, if Jesus would tell her, if she was going in the right direction, for her spiritual growth.

We got Jesus in the table, and He said, in regards to her question,

*"No, be one with everyone."*

In other words, He does not want us to join any organization, that separates us from others.

*February 26, 1974*

I also asked Him if Lucifer was thrown out of heaven, with many other angels.

He said, *"All of you have to come back to earth, until you have reached your perfection."*

In other words, Lucifer had not reached his perfection, so he had to come back to earth, until he had reached it.

## You Need To Release Love

The blue sky of happiness  
Fails to reach many unhappy minds  
God so generously gives of this beauty  
But so few open their eyes to view it

The only way one gets what he wants  
Is by giving it to others  
For the minute you give—you are receiving  
Regardless from where it comes

You can never put more into something  
That is filled to the very top  
So if you are filled with self pity  
That is why new love has stopped

Start giving out and be friendly  
See how quickly your loneliness leaves  
New loves and new friendships  
Will fill your heart with ease.

*January 6, 1971*

Dear God, William said, "our soul mind already knows our future."

Can we tune into it, and know what we are to do? Would it help us to know? Could we change it, if we did know? Are there certain events that are going to happen regardless of what other people do?

Do we still have free-will to plan our future, or is it really our soul mind, that is telling our present brain, what to plan for in the future? Surely everything is not cut and dried already? Where would we have any incentive to look ahead. Perhaps, it is just the details of the events, that we have free-choice in doing.

Like in school, the teacher already has programmed the whole year. She already knows what you are going to learn. How we do it, and when we do it, is up to us. But before the year is over, you will have to learn all that she had programmed for you, or you will have to repeat it the next year.

If all main events are already planned for us, why are we constantly worrying about the future?

*February 7, 1973*

Man must remember all men are part of God. Just like your arm is part of you. The reverence you have for God must be given to each man. Thus you are paying tribute to God.

How you treat mankind is how you are treating God.

God does not say, "Forget all others, and pray and worship only me." He stresses "Love one another."

Each one is part of God already. Jesus did not go around and continuously pray to God all day. He prayed for help from God to help all of His children, who were walking the earth.

Man is not Godly just because he goes to church every Sunday, and prays every day. He is only Godly when he is helping his fellowman!

If man started his day out, by saying, "Thank you dear God for this beautiful day. Help me to be worthy of it, by giving my love to others, like you are showing love for us."

Then man would truly love God! Instead we ask God to give us more money, so we can have more than our next door neighbor.

*September 25, 1973*

We are constantly thinking about "me," or "I." We are building larger egos, instead of having compassion for our fellow man.

All are seeking titles, publicity, even if it is negative publicity. We all want to be noticed. Yet, we know down deep inside, we will leave this shell we are in, and this earth, and all the material things we thought we needed, and face God with what is left of us. How much worth are we going to put on the material things then? Think about this!

We like to think God is way up in heaven, millions of miles from us, but God is ever present, in every room in your house, on every street that you walk, in every person that you see, and in every flower, tree, animal or bird.

How much attention do you give to Him. Do you have reverence for all these parts of God, or do you only have reverence for the part of God, that gives you what you want?

*September 25, 1973*

Even God with all His power, sees you going through all these heartaches, and if He feels He shouldn't interfere with your learning, why should you expect others to help you.

God could eliminate all of these situations, that you feel are unpleasant, in one second, but wise God knows you are going through these experiences, only for your learning.

Even with all the love He has for all of His children, He does not change the situation. He stands back and He watches you grow spiritually.

He gave you the right way of life, to follow, and if you stray from His Truths, you must come back on your own!

Don't expect spiritual mediums, or healers, to do what you are supposed to be doing. There are no short-cuts, to your spiritual growth. Take one step at a time.

Don't let your ego stop you from changing from your old ways of thinking, to God's way. Regardless of what religious beliefs you have, or do not have, once you know the real purpose for your being here, it will pay you to change as soon as possible, otherwise, in your next lifetime, you will be far behind!

Believe me, there is enough proof, that we have been on this earth, many many times, and we will be back again, many many more times, until we have all reached our perfection of God!

Each person trying to be more God-like now, is helping this world to be a better place to live in.

## Thoughts

I wonder whose thoughts  
I am picking up now  
They constantly come through  
On my vibration

Sometimes they are gentle  
Loving and kinds  
Then sometimes I wonder  
Just what is on their minds

From what distance  
I cannot tell  
But certain love signals  
I know so well

Who could be thinking  
Or wishing to communicate  
But does not have the time  
To write and wait

So urgent this message  
Please make it clear  
Then I can answer  
Your love call my dear

*February 6, 1972*

Have you ever stopped to think how powerful your thoughts are?  
Have you ever thought, how your thoughts, do effect other people?  
Did you ever know other people's thoughts, definitely effect you?  
If you do know all these things, have you tried to send out, only good thoughts, day after day?

Perhaps, all of us have good intentions but a little feeling of resentment, jealousy, hatred or envy, creeps into our thoughts, and it keeps us from fulfilling God's desires.

Many will say, this is only human nature to feel these emotions. This is true to the extent, it is human, not spiritual, to feel that way.

As you grow in awareness, you will know this is not God-like, so you put an extra effort into thinking more God-like.

Once we are aware, that to be God-like, we must live it daily we try harder.

You would not be reading this book, if you did not have a desire, to grow more spiritual.

Don't fall back to old thinking, once you have felt the joy of becoming more spiritual. Just because someone else you know, is thinking negatively, don't go along with them. Try to help them to realize that their whole life is only for growing to perfection.

Do not let others hold you back from your growth. Send them love, and continue with your learning. They may not be ready for this growth at this time, even tho their earth age may be the same as yours.

Always remember, there will be those that are further advanced than you are spiritually, and there will be those who have not learned, what you have learned.

Each one can only think, and reason with the knowledge he has at this time. He may only know as a child, in this one phase of learning he is going through, where as, he may be God-like in another phase, of this growth, and you may only know as a child, in that stage of learning.

Accept him, and love him as he is learning. Remember all are as children, in one stage or another.

Be ever reminded you are on this earth, because you still have something to learn, before you can reach your perfection.

One spends too much time in judging others. How can you judge another, when you cannot even judge yourself? Furthermore, if you are judging others, you still have lots to learn.

Remember you are the only one you have a right to judge, and I say judge for want of a better word.

Most of our judging is not correct, because we only judge with our eyes. One has to feel, and see deep within another person, before we can truly say, that we know the other person we are wrongly judging.

Furthermore you do not love the other person, or you would not be judging him in the first place.

Stop and think of the people you have so carelessly judged. What category do they belong in. Is it your envy, or hatred, jealousy, or resentment that you have for them?

Just ask yourself, and be honest about it. You will see they fit in one of these emotions you feel!

*April 4, 1972*

Here are a few more quotes of Truth, that Jesus gave me.

*"Wrong thoughts of others, can do you no harm—if you send them love."*

*“Love costs you nothing to give, but if you do not send out love it may cost you plenty.”*  
*September 16, 1972*

*“You must understand all the workings of God—and the purpose behind them.”*  
*June 25, 1970*

## The Secret of Healing

Jesus said, *“No healer can be used by the “Higher Forces,” unless he loves all of humanity.”*

*“Healing is love—energy used in the right way.”*

*February 4, 1974*

One day when I was praying to God, for help in healing some friends, Jesus came in and said, *“You call these prayers, we call them love vibrations.”*

In other words, when you are praying for help for someone, you are sending out love-vibrations, which is a healing force!

I think it is so beautiful, the way Jesus expresses the true meaning of words, we use so often, without realizing their true meaning!

Remember God is the *only* one that really heals!

He works *through* you!

Jesus said, *“Many who seek the true God teachings through me, feel it is inadequate for the present day society.”*

*“Many have imposed an entirely different concept of God’s purpose for you on your plane of existence.”*

*“They seek, they learn, they leave, only to return to its fundamental teachings, after many earthly experiences.”*

*“Continue with God’s teachings in the simple way I give you God’s Truths.”*

*“Simplicity is far greater than expanded interpretations.”*

*October 28, 1969*

Again Jesus is trying to say, the real teachings of God’s Truth is simple, but man with his institutions has expounded, or expanded this Truth, but it is only his misinterpretation of it, that has caused people confusions, and fear!

They think this will hold the people in church, but being fearful of God is certainly doing a great injustice to our Father.

*“Man must learn that God is a loving God, not a punishing God!”*

It is only man’s ego, that keeps him from changing to the real Truth, because he does not want to admit he had put the wrong interpretation on the teachings of Truth, in the first place!

*September 29, 1974*

Remember one’s soul is always seeking new outlets for the knowledge gained.

Sometimes we think we are going to a place of learning, whereas, we are going to a place of giving, of what we have already learned.

Re-read and think about this, and see if it isn’t true.

*October 28, 1969*

Jesus said to me, *“Your purpose is to expose as many as possible, to their real purpose for being on this earth plane. Then they must go on, and learn from there.”*

*October 28, 1969*

*“Each one will use this knowledge in different ways. Give with love, and understanding, of each one’s purpose, and let them use it, to help others.”*

*“Soon all will know there is only one Truth of God, only one purpose for everyone, and that is to learn to “love one another,” and grow to your perfection. It will take many lifetimes to learn this Truth.”*

*October 28, 1969*

*Jesus said, “You give the Truth as I give it to you. Know it is the Truth, because I will spell everything out.”*

*“Remember one important part of your teaching is, the spirit in which you give it to others.”*

*March 23, 1970*

*Then He said, “Gather unto me, all God’s children, one by one.”*

*One day I asked Jesus, “what did you tell your disciples, by the Sea of Galilee, after your resurrection, when you appeared visible to them?”*

*He said, “Men, I will you to teach Truth, to the world.”*

*April 8, 1973*

*Jesus said, “Mankind will learn God’s Truth through this book.”*

*June 10, 1973*

*If man follows “God’s Way of Life,” he will get in tune with his Master Teacher, and will recognize the oneness, with his own soul-mind, by the thoughts that come through.*

*No one else can give this to you. Only you yourself, when you are in tune with God.*

*Everyone will have hardships, and sorrows, this is the way of growing stronger, and wiser.*

*Remember, it is *not* satan, or the devil, that is causing you to go through these experiences, because there is no such thing as a devil, or a satan. These are names given by man, to an invisible force, they cannot see, or to blame them for the situations they don’t like being in. Instead of learning from the situation, they are using alibis.*

*These are only lessons in learning to grow to your perfections.*

*June 10, 1973*

*The sum total of all that there is—is GOD!*

*Remember there is a parallel to everything!*

*The whole world is like one big body. It could be God—and we are only cells in God’s body.*

*The rivers, lakes, and oceans, could be veins in God’s body.*

*Wars could be imperfections, or diseases in God’s body.*

*He could have fat cells, and lean cells, even cells that are starving, like the people in India. Lack of circulation in our own body causes starvation to our cells.*

*Are the cells in our own body intelligent? Does not white cells multiply when we cut ourselves, or when we have an imperfection? Do not soldiers multiply, when there is a war? Do we not bump into each other in cars, causing injury? Do not our own cells gather, and bump into each other, when our brain tells them to go in two directions, at the same time? Is this not causing illness?*

*Does not man reject laws, and does he not try to do too many things at the same time, thereby speeding up and bumping into others?*

Should we not take time out to view our world from a distance, to see the overall picture, as God sees it?

Would we not change our ways of thinking and acting, so as to harmonize with others?  
*July 23, 1973*

## Hidden From View

Just like the golden sun  
Is sometimes hidden from view  
Many of God's mysteries  
Are often hidden from you

Tho just beyond your earthly eyes  
All of God's mysteries lies  
When you reach your perfection  
God explains why He stands by.

*February 10, 1960*

## Unknown Treasures

Deep within a garden wall  
Lies hidden treasures there  
For centuries no one ever knew  
That High Priests put them there

Could it be a precious Ruby  
Or stones of the rarest kind  
Could it be a many carat diamond  
Or is it knowledge—to enrich the mind

Who whispered this secret to me  
Who feels it's time to tell  
Who thinks I would use it wisely  
To help the sick—and make them well.

*November 7, 1971*

Scientists probe the earth, and other planets, in search of mysteries yet unknown.  
Yet, the greatest mystery is the mind, the soul-mind!  
It has unlimited knowledge, that we do not know.  
The help it gives each one daily, yet, we are unaware of it. We are only aware of what is in our brain.

When will man probe into this link between God and man?  
How few people ever know the wisdom of an individual. They only know how much of an intellect one is, but not the wisdom he has.  
The wisdom has taken eons of time, to be in the stage it is in now.  
So few know this is the *only* part that returns to the other side, when we leave this world.

Your present brain, remains with your worn out body.  
Each person's soul-mind is in different stages of perfection, so scientists would have to probe each individual, to find the true answers.

You must know that you *can* get in tune with this wisdom, and be aware of its great help to you.

All you have to do is, *listen deep within!*  
*September 17, 1971*

Many thoughts are intertwining with mine, to change the original thought. I pause to write—

I thought of love, and the many persons that have made this word mean so much to me.  
With each, I feel a different vibration, that lingers on to this very moment!  
Many years have passed between the times I felt each of these loves.  
I wonder if we will ever meet again, in some other life-time, and will the spark of love, flow freely, as tho it had never ceased!

Does love really ever die? Is it forever flowing, from one to another, like the very air we breathe?

All I know is, when my thoughts drift back to this love, there is a soft warm feeling deep inside, reassuring me, that God was kind to me, for letting our paths cross, if only for a moment in eternity.

*August 13, 1973*

## Eternal Love

You may have long forgotten  
The twinkle in your eyes  
The loving smile upon your face  
When we met and talked together  
But I find the words you had spoken  
In books that others wrote  
I see your smile—on another's face  
Tho I know them not  
But to me—the same wonderful feeling  
Fills my very soul—with ecstasy  
As tho we were together again  
The kindness that you gave me  
Has multiplied a thousand times  
And I bless you—as my faith is renewed  
Through these remembrances  
How often I have thought  
If we could only meet again  
What new joys—would we be feeling  
That could spread around the world  
One wonders how lasting  
Is this dynamic energy that floods us  
With renewed hope and enthusiasm  
What better lives we have lead  
And how much easier it is to give to others  
When others gave so much to me  
I thank you dear wherever you are  
For the love you unselfishly gave to me  
That will last throughout eternity

*January 15, 1971*

The divine power of God, has such unpredictable ways of teaching His Truth.  
One has to be constantly alert, to small signs. He may get your attention to listen deep within, in many ways, that you least expect.

No one can be told, how He comes. Each one must feel Him, in their own way.

He may come and go, many times, through these Higher Teachers, who have been assigned to you. *You* are the only one that can make this contact, that will help *you*.

Each in time, gains this knowledge, through Teachers that have been appointed to you.  
*December 8, 1970*

My Master Teacher Zoro said, *“True knowledge is gained, when one realizes that there is a world, within your world, with power and energy unsurpassed.”*

Also He said, *“When you can feel our feelings, with your feelings, and above all—when you can love, like we love.”*

*May 7, 1966*

Life’s complexities rob us of the precious time we would like to spend communicating with our loved ones, and dear friends, whose friendships have meant so much to us. Even tho daily our loving thoughts fly over the miles to convey our desires.

I hope perhaps some may have reached you, for I have felt your closeness.

One’s heart aches for the lack of time we have, to show our sincere love for each other.

With science speeding up everything, they may discover how to communicate immediately with the person we desire to contact, without the aid of an instrument.

Then and only then, has man’s mind, or brain expanded to encompass the God-love given to us all.

*August 27, 1968*

Another thing to remember is, that the ones that do not have love, or are not capable of loving, resort to other stimulus, for their much needed energy to live.

*August 30, 1968*

Jesus said, *“When will man learn that the person who has committed a wrong act, alone is not to blame. All those who caused this man to act this way, are also responsible for his act, at that time. No man would act in a negative manner, if he had been accepted, and loved, by those around him.”*

What is the one teaching we all must learn? It is to “love one another,” regardless of the stage of growth, each one is in!

Why are we less critical of small children, when they do something wrong, when many time an adult has less soul growth knowledge, than the child?

This must be the first teaching each child must learn, and that is to “love one another.”

In God’s eyes, we are still all children.

Remember, each one is part of God, you destroy this part, and you are destroying part of God!

No one has a right to destroy another.

*“God knows how much love you love Him, by the way you treat other people.”*

*July 8, 1973*

I asked Jesus about the beautiful messages, He has given other people, that have been receiving Truths of God, through trance.

I said, their messages are always so beautiful, and with such words as, "My dearly beloved, or My beloved children" but the messages you usually give me, are just short sentences. I wondered why He didn't start His messages out that way to me.

He said, *"I give you God's Truth."*

I said, yes, but you give them God's Truth also.

He said, *"They are expressing their feelings of my presence. Usually, I spell each word out to you. You are the only one I can talk back to, word for word."*

He does give me these direct quotes, that are in the book. He also gives me inspirational messages, that I write down, then when He comes in the table, I read it back to Him, and if I had misinterpreted any of the message, He will correct it, and spell it out right.

This way I know everything that is quoted by Jesus, has been verified by Him.

I felt better after He explained the difference in the messages.

Humanity has spend so much time and money, on our outward appearance, and so little time on the real you, or your soul development.

We are beginning to look like a bunch of robots, and standing around like mannequins displaying clothes and jewelry, to cover up the neglect of our mentality, and soul growth.

How bored we become, after just fifteen minutes talking to these people. Nothing deep is able to come to the fore.

After one tells of their illnesses, their monetary losses, and a few unpleasant jokes, there is nothing left to say, except talk about sex.

How devastating all this can be! Does man ever stop to think why he was put on this earth? Surely not for this purpose.

God's great plan was to have man "love one another." Not to compete, or to strut, or strike out against one another.

The sooner man learns what his real purpose is, for being on this earth, the sooner we will have peace on earth!

*January 24, 1972*

## Mysteries Of The Night

I leave the beauties—of this night  
Reluctantly I try to sleep  
Tho churning through my mind  
The mysteries of this night

So sweet—so gentle—so loving and kind  
Were the feelings and words I heard  
They echo back and forth until—  
I'm fast asleep—with dreams divine!

*October 31, 1969*

## One With God

All your youthful goals  
And your youthful desires  
Are lost in the gentle flooding  
Of God's deep love for every one  
No prejudice—hatred—jealousy or fear  
Remains within  
Only God love—fills every corner  
Of your very being  
This is the “Miracle of Life”  
And the “Fountain of Youth”  
God wishes to give to all  
How to receive it—how to feel it  
Just humble yourself like a child  
He will reach in—and touch you  
So gentle—yet so powerful  
Your energies will exceed  
All expectations  
Because you are one with God  
Oh dear God—I thank you.

*February 20, 1970*

Looking beyond what the eyes can see, and seeing the many spirit helpers around, makes us know we are never alone.

Let them help you when problems arise. This is their purpose for being near. God provided them for you, to help you all through life. It is up to you to contact them, whenever you have a need. This is true for everyone. You all have your teachers and guides. They know what you are learning in this incarnation, so let them guide you, and your burdens will be lightened, as you learn the lessons, you are to know.

Every person is doing the same as you are doing, each time they return to earth, until they have reached their perfection.

*March 10, 1973*

Another lesson Jesus gave me was this. He said,

*“When you repeat what another person has said to you—you are responsible for these very words. You are saying the same words, as if they originated in your own thoughts—if you repeat it to another—you believe this information, if it is true or not. So you too, are responsible for its effect on others.”*

*June 16, 1972*

The uncertainty of things causes confusion.

Let a child, or adult, think positive. Even if it is right or wrong. Only by throwing all of his forces, in one direction, will he ever succeed.

He may have failures, but they will be positive failures, and he won't make the same mistake again.

He will still use all of his positive forces, to correct these mistakes, but this will not throw his inner forces in confusion.

He also will keep himself healthy, because all of his energy is used, going the same way.

## Friends

Friends we meet along life's pathways  
Renew our faith in God above  
Helps us through the rough roads  
And helps to make us give out love

For while we are giving—we are receiving  
Far more than what we are giving  
For God is giving twice as much  
To everyone that is living

Each time we meet a new friend  
We truly are twice blessed  
Not only receiving their love  
But God's love with the rest

So thank you for the joy you brought  
And all your thoughtful ways  
I'm sure our paths will meet again  
And may only happiness fill your days

We were not strangers when we met  
Altho we had never met before  
At least in this one life time  
Tho I'm sure we met in days of yore

It's nice to know—one understands  
Our problems of the day  
Tho our paths have never met until now  
I'm sure our love is here to stay

*September 17, 1971*

Why should man doubt the existence of God, just because you cannot see Him.  
When the breath of life leaves the body at death, no one sees the breath leave.  
No man has figured out what this breath of life is.  
Could it be the part of God we cannot see?

*February 4, 1973*

One of the reasons everyone that has passed over on the other-side, cannot be contacted, by those on this side, is because of reincarnation.

Some souls reincarnate only after a short time, on the other-side. It all depends on the level of learning each one is on, and how well they have learned their lessons, while here.

Many wait for their immediate families to return to the other-side, before they return to earth.

Each one has free-will to return when they so desire.

*November 10, 1967*

## Weep-Not

Weep not for those  
Whose souls are ready  
To cross the great divide  
For they are free  
From earthly cares  
Their souls live on  
Tho their bodies die  
They are not very far away  
In fact they still are here  
To help quiet their loved ones  
And take away all fear  
If earth souls could only know  
How beautiful it really is  
Each time you come over  
You blend your love with His

*April 20, 1960*

Does knowledge bring wisdom or fear?  
As a little child, does one fear, hate, see evil, or is it one's desire only to be loved?  
As we grow in earth years, and so called education, do we grow more loving, or do we become selfish, and desire only for ourselves?  
Do we start seeing wrong in others, and feel jealousy, and hatred? Is this knowledge?  
Surely it is not wisdom! Therefore are we not teaching fear, hatred, and selfishness?  
Or is this just the result of more knowledge?  
Every word we speak to a child forms one or more of these emotions.  
Where is the love, the understanding, the tolerance, we so deeply seek?  
Where must this teaching start? Where must we seek to find this wisdom, and knowledge for peace among all souls, on this earth?  
*September 23, 1966*

If there ever comes a time when I cannot love anymore, or dream anymore, let me pass on to another world.  
Each day I find something, or someone to love. It inspires me to go ahead.  
It may be a poem, a picture, a flower or a child, each one brings to me a happy feeling, which makes this life all worthwhile!  
*May 12, 1948*

Little Angels, and highly evolved spirits, I feel you all around. I wish I had time to talk to you more often than I do. The wealth of knowledge that you hold, could help all mankind. Please help me to know what I should do—Is it more important to tell people of this knowledge I've already received, or to spend the time talking to you?  
These are the questions that may come into many minds, of those that are trying to bring forth God's Truth.  
One could be very selfish, and try to receive only the knowledge, that would benefit themselves. But if you really feel the spirit of God, all around you, you will want to be giving it to others, so they can feel the joy you feel!

## The God In You

I wish I could reach—within your mind  
To your soul—where wisdom lies  
Where heavenly love—is stored for use  
Where unfilled dreams—are a reality

I wish for a moment—I could really know  
All the deep thoughts—you are thinking  
To really know—the God in you  
And find out—what you are seeking

Your eyes hold mystery—deep within  
Too deep your thoughts—so few will know  
And yet the tender-caring love you give  
Sure does not wonders—to one's soul

God must dwell—deep within you  
His mysteries—He shares with you  
For on your face—His love light shines  
This love that flows—is so divine

I treasure moments—shared with you  
I get a glimpse—of all that is true  
For God is really—there with you  
And saying—He will be with me too

*February 13, 1970*

To have tolerance one must learn to accept each person as they are now, regardless of color, race, or creed.

Be tolerant of their difference of opinion, and do not judge what they say or do, as wrong or right. Even if you feel they are wrong, they may be right, in their stage of growth.

Remember God loves everyone equally. Have brotherly love, be friendly, and understanding. Everyone wants to be loved and accepted.

Do not build up resentment from other's actions. Know they are doing the best they know how to do, with the knowledge they have now.

Acknowledge each one's fine qualities. Have compassion, and concern for everyone. Give out love to everyone you meet.

The greatest love can be, just accepting the other person, as he is now!

*April 21, 1970*

## Is This God-Love

Some mystery veils  
These thoughts of mine  
What reason—yet unknown  
A fleeting touch  
Of these emotions  
Yet too intangible to hold  
Could this be some emotions  
I had in a life time before  
Or am I generating a love  
Too powerful to be released

Sometimes I feel—I'm deep inside  
Where love supreme is guarded  
With each person that I meet  
I am lost deep within them  
Tho unaware—they seem to be  
Why is this feeling always there  
How can one explain this love  
Too deep for one's expression  
So divine—and so heavenly  
It must be God love that I feel

*November 15, 1969*

Only through deep concern of all people, can the world eliminate wars, and illnesses.  
Man must learn God gave all of us, the greatest weapon on earth, more powerful than the atom power and that is the power of love!

The power of each individual will be shown in the way he uses this love, in making this a better world.

Man only has wars, because of greed, and wanting to prove how powerful he is.

Check on the reasons for all the wars in the past, and you will see it was man, not nations, who started each war!

*February 9, 1974*

I said to Jesus, I wish God could give us peace on earth!

He said, *"God gives you peace on earth, every morning. Look out at the peep of dawn."*

*March 4, 1971*

Here are a few more of the quotes Jesus gave me, at different times.

He usually only gives you one quote at a time, so you think about it.

He said, *"Hug your enemy, he is God! All are of God. You love God when you love them."*

*"Churches will teach Truth of God only. No different religious sects. Unification of Churches will take place."*

*"This Truth of God was the same from the very beginning. Only man has misinterpreted the teachings."*

*"Love was what it was created for. Love is the foundation everything must be build on to last."*

*"Love is the one word that will unite the world."*

Until each individual can feel he has a right to live in peace and dignity, doing whatever he is capable of doing, to serve mankind, there will be segregation—degradation, prejudice, hatred and wars!

*June 3, 1972*

There is peace on earth, and all around, but until each man comes in tune, with this state of being, they will not recognize it, or feel it!

*October 16, 1965*

## A Word of Praise

If only each one of us  
Would just take the time  
To say a kindly word or two  
For someone who is down and out  
How much good it would do  
A word of praise—justly deserved  
To someone who is feeling blue  
Could change their whole world  
And make you happy too  
So if you are sad and feeling blue  
And you are wondering what to do  
Just pass a cheery word to another  
Then see how quickly all will recover

*March 4, 1948*

Sharing one's joys increases the joys for others.

Talk of happy times, not sad events.

Each time either is repeated the air becomes full of either sadness or joy.

We are all breathing in this air, which one would you prefer to breathe?

Don't continue to contaminate the air with hate, and resentments. Fill it with love—joy and happiness.

These thoughts are like healing medicine for everyone.

Remember everything that is needed in life is right here in the air all around us, and in the ground.

Sharing thoughts brings much more wisdom to all.

Sharing burdens makes them lighter.

Sharing love and faith and kindness.

Makes the whole world so much brighter.

*July 4, 1967*

## God Will Provide

This world God made with wisdom  
Far greater than man can imagine  
He made it is so everything  
And everyone could survive  
There was food for the tiniest insect  
And food for the largest animal  
For man He gave us the greatest variety  
Different vegetables fruits and fowls  
What has man done  
With these precious gifts  
His greed is destroying  
His every gift to survive  
From the clean fresh air  
To the life giving earth  
Man only needs enough  
To survive each day  
God will see that tomorrow  
Will take care of you  
If we all share—and not be greedy!  
And help one another—especially the needy.

*July 2, 1974*

## Ecology Or Environment

We worry about the polluted air  
From gasoline and factory fumes  
But the deadliest things  
That poison us all  
Are our thoughts  
Of jealousy—hatred and greed  
Our brains are poisoned  
By pictures and stories of smut  
And young bodies are ruined by dope  
The resulting diseases  
That cripple our youths  
Overshadows the gutters  
Of paper and trash

*April 21, 1971*

## God-Love

Could I but give—the love God gives  
For all the world to share  
It would be so wonderful  
To spread this God-love everywhere

*January 25, 1971*

These are messages Jesus spelled out word for word.

*“World too wrong. God starts man teaching Truth again, so He sends teachers to you.”*

*December 3, 1967*

*“Truth needs no house to teach in. Tell all dear ones—am I not in all.”*

*May 18, 1971*

*“If they do not believe God’s Truth—let them disprove it.”*

*June 10, 1971*

*“How shall thy live—by thy deeds—thou shall trust thy needs.”*

*December 3, 1967*

These are messages from my Master Teacher, Zoro.

*“Many die gutter poor, but will be rich in wisdom, and utter words of great prophecy.”*

*“Know paupers are too torn with only ground to sleep on, to be able to teach others how to work good towards world.”*

*June 25, 1970*

## Sharing God's Love

If I could tell you of the love  
I hold down deep inside  
You would know how much I love you  
And will until I die

I do not mean—just a single soul  
But every one I meet  
It doesn't matter if we are close friends  
Or if I only pass you along the street

My love is there—for all to share  
The same love Jesus gave  
Each one has this God-love  
That He gave to each one from above

How to use it—is our free-will  
But please don't bottle it up within  
It wasn't given just to hold inside  
It was meant to share with one another

All ills—all heartaches—all burdens  
Can be lightened with this love  
Remember these most precious gifts  
Were given free—from Heaven above

*February 13, 1974*

Most of us spend so much time, in resenting where we are in life, and the experiences we are going through, instead of looking for the learning from these experiences.

We forget our one main purpose for any of us being here on earth, is for a learning.

This is one of God's schools, so learn all you can, so you won't have to go through this grade again.

*October 12, 1968*

## **Thank You Dear God**

Your deep love is revealed  
In these thoughts of mine  
I cannot take the credit  
For they are all yours  
These thoughts divine  
Thank you for speaking through me  
To give your Truth to humanity  
I hope they feel this closeness  
That I feel dear God with You!

*March 8, 1970*

Would God ask us to “love one another” if He did not love us all first?

Would Jesus say, on the cross, *“Forgive them Father, for they know not what they do,”* if He didn’t know that God was a loving forgiving Father?

Now ask yourself, if God is a loving forgiving Father, would He make such a place as hell, or purgatory, for His children, who made mistakes?

If He could forgive those that crucified Jesus, and the two men on each side of Jesus, would He not forgive others, who have made less mistakes?

How could we love such a God, who would let some of His children be tortured like that?

Jesus said, *“There is no hell, this word is man made, not God made. God only loves—He never punishes.”*

*February 25, 1972*

Christmas Day 1973, I asked Jesus if He had a chance to speak to the world today, what would He tell the people.

He gave these several messages.

*“See God in each man.”*

*“When you welcome man in home you welcome God.”*

*“The spirit of God, is the spirit in your soul.”*

He spelled these messages out in the morning, then that evening He came in again, and spelled this message out.

*“Condemn not the man who has done something wrong, but search for the ones, who need help, who caused this man to act this way.”*

This really is a tremendous lesson of Truth for all of us!

We never stop to think who, or why, it was that this man should act this way.

All we want to do is punish him.

Maybe we should stop and think of Jesus’ message, *“Condemn not the man who has done something wrong, but search for the ones, who need help, who caused this man to act this way.”*

## What Christmas Is All About

Off in the distance—I hear sleigh bells  
Coming closer and closer each day  
The smell of freshly cut pine trees  
And gaily decorated Christmas displays  
Line every street along the way  
The Christmas spirit is contagious  
With love in each one's heart  
Christmas cards are being sent out  
With loving thoughts to those apart  
The thrill of knowing Santa's coming  
Fill the thoughts of all the young  
While the older folk remember  
The shepherds—and the coming of Christ  
God gave the world His Holy Son  
So we could learn to love each one  
This is what Christmas is all about  
And why Jesus was brought to this world  
So He could teach us the Truth of God  
And the love God has for every one

*December 2, 1971*

## Midnight Bells

We will be listening for the midnight bells.

Telling us another year has ended. What was done—cannot be undone. Only new hopes—new dreams—and new loves can make the New Year a better one. If we could only drop old hurts, prejudice, and hate, as we must do the old years events, what a happy world this would be.

We can never change the past, tho in our thoughts we try to.

Only the future, can we change and mould it more to our liking.

Past errors are just part of the learning we had to go through.

Everyone makes errors while learning, regardless of the stage of growth they are in.

So we must not be too critical of our errors.

The new year can only be better if each one of us, try to give more love, and understanding, to all peoples of the earth.

God loves all, so why shouldn't we?

*December 30, 1969*

I am starting with you, and I want you to know I love you, just for you. Not what you have, or what you have done, but just because you are one of God's children.

This love you can be assured of as long as I live!

With the help of God, may this love spread far and near, especially to those in need of more love at this time!

*December 30, 1969*

## My Prayer

Oh Glorious God  
Again we sing praises to you  
The beauty of this season  
Blends with the beauty of your love  
Help us in our giving  
To be unselfish—and unjudging  
With all of your children  
We give thanks for the many blessings  
That we all take for granted  
Like the glorious sunrise  
And brilliant sunsets  
The love and tender care you give  
All of nature for us to enjoy  
Part of your strength  
Is shown in the mighty mountains  
In all the beautiful trees  
And in the tiniest flower  
Your love is like the ever flowing waters  
Of oceans—seas—and rivers  
Forever flowing through each of us  
We are constantly breathing in and out  
The air you filled with life giving love  
May this season of giving  
Spread throughout the year  
And around the world  
Help us understand that each day  
Is a beginning of a New Year  
And not just January first  
May the church bells ring each day  
Proclaiming your presence at all times  
Thank you God for being ever forgiving  
Of our many short comings  
But know that deep in our souls  
Our love is constant for you  
May this holiday season  
Make us realize that each one of us  
Are your children  
And part of you is in all of us  
Your son Jesus Christ reached the perfection  
We all secretly seek—and will attain  
After our many lessons are learned  
Thank you for the patience you have  
When we turn away  
From your teachings of Truth  
Thank you for helping us up  
When we stumble and fall

Without your unseen guiding hands  
We would be lost  
We each look forward to meeting you  
The author—the producer—and director  
Of life—of this great play  
In which everyone has a part  
Again we sing praises  
For your great love  
That surrounds all of us  
Yet so few of us—return this love  
Or give it to others  
Help us to give this wondrous love  
To each one we meet  
And make us realize  
We are all brothers and sisters  
With only ONE Father—the maker of all!

*September 26, 1970*

After you have read this book, if each one of you, tried to live these teachings, soon the whole world would have "Peace On Earth."

No one would take the life of another person, because he would know, he was his brother.

No one would go hungry. We would share what we have.

No one would feel unloved, because you would know, you already have the greatest love of all, from your Heavenly Father.

Everyone would be accepted as he is, because you would know, he will reach his perfection, the same as all of us will, after our many incarnations.

Each one would want to help the other progress to his perfection, because in another life time, you may be closely related to him.

These teachings of Truth were given to Jesus, and all the Great Masters, from God. They are the same Truths, that have existed, since the very beginning of time.

It will take a tremendous amount of will power, to follow, and live these Truths! You, and only you, can change this world. Don't wait for another to show you the way.

Start today to live these Truths of God. You will be on the right road to world Peace, which means all will "love one another."
